No. 776—3735, *dated* 20*th April* 1914.

The Government of His Highness the Maharaja of Mysore are pleased to appoint Mr. C. Narasimha Iyengar, A.C.E., Sub-Assistant Engineer, 2nd class, temporary, on the Public Works Establishment and to post him to the Shimoga Division.

By Order,

K. KRISHNAIENGAR,

Officiating Secretary to Government,

Public Works Department.

DEPARTMENTS OF EDUCATION AND AGRICULTURE.

No. G. 8435—*G. M.* 67-13-248, *dated* 18*th April* 1914.

Rules 2 and 17 of the rules for the grant of loans for industrial and commercial purposes, published with Government Notification No. G. 2146—G. M. 55-12-240, dated the 2nd September 1913, are amended as follows:—

"2. The Director of Industries and Commerce shall be competent to sanction loans not exceeding Rs. 2,500 under Rules 11 and 12 *infra*, this limit including, in the case of hire-purchase transactions, the amount deposited by the applicant. The Chairman of the Industries and Commerce Committee may sanction loans under Rules 11 and 12 for larger sums but not exceeding Rs. 5,000; loans for sums exceeding Rs. 5,000 shall require the sanction of Government.

Add the following to Rule 17:—

"In cases of loans under Rules 11 and 12 for sums exceeding his powers of sanction, the Director will forward to the Chairman of the Industries and Commerce Committee the papers connected with the applications, together with his report thereon, accompanied by a brief statement of each case where the original papers are lengthy. The Chairman will himself dispose of the case if the loan is for a sum not exceeding Rs. 5,000 or if it is for a sum exceeding that amount, forward the application to Government with the opinion of the Committee thereon. Cases placed before the Committee for opinion should be considered by the Committee and finally dealt with at the meeting to be held next after their receipt, so that no delay may occur in their disposal."

By Order,

C. S. BALASUNDARAM IYER,

Secretary to Government.

RAILWAYS.

and (*b*) Mr. D. G. Dani will, in addition to his work as Under-Secretary for Railways, be in charge of all other work with the designation of Officiating Superintending Engineer, Feeder Railways.

By Order,

E. A. S. BELL,

Secretary for Railways, Government of Mysore.

FINANCIAL.

No. Fl. 4932-81—*G. F.* 163-13-1, *dated 22nd April* 1914.

The following rules explaining the concessions that will be given to promoters of Light Railways in the State are published for general information.

By Order,

J. S. CHAKRAVARTI,
Financial Secretary to Government.

Terms on which the Government of His Highness the Maharaja of Mysore are prepared to consider offers for the construction of branch lines of Railway within the State.

---

1. The concessions to be given to promoters of Light Railways in the State will be decided in each case by Government and embodied in detail in separate agreements. Such concessions will be generally on the lines adopted in British India (*vide* the latest rules published in the *Gazette of India*, Part I, dated 29th November 1913, pages 1304 to 1311) with the modification that the rate guaranteed in the Mysore State will be 4 per cent instead of 3½ per cent and with some minor changes indicated by the rules below or other special orders of Government. Extracts from the Government of India Rules adapted to local conditions are appended hereto (Annexure A). The present rules relate only to arrangements for financing local railway projects.

2. Whenever a District Board, a private company or any other body offers to raise capital for constructing a feeder railway, the Government may, after such enquiry as they may deem fit, guarantee the payment of interest on such capital at 4 per cent per annum for a period not exceeding 30 years.

3. In the matter of affording guarantee and granting other concessions, Government will give preference to lines according to their importance and also according to the proportion of capital raised locally by the financing body. Government reserve to themselves the power of rejecting applications without assigning any reason.

4. If any line guaranteed under Rule 2 works at a loss, that is, pays less than 4 per cent per annum on the paid up capital, an amount sufficient to raise the return to 4 per cent on the whole capital will be paid from State Funds.

5. If the line works at a profit of over 4 per cent, half the profits in excess of 4 per cent will go to the State.

6. As an alternative arrangement to that contained in paragraph 4, the amounts drawn from the State Funds during a period of loss may be treated as an advance to the particular railway to be repaid with interest at 4 per cent. In that case in modification of the arrangement in Rule 5, the whole of the profits during a period of profit will be available to the owner or owners of the railway, no part of the profits going to the State Funds.

7. Whenever a railway is constructed in a district which has an accumulated fund of railway cess imposed under clause 1 (*a*) of Section 20 of the Local Boards Regulation, all payments required to be made under Rule 4, will be made out of such railway cess fund as far as available and the balance from State Funds. In such a case, any profits derived under Rule 5 will be divided between the District Fund and the State Funds in proportion to the contribution made by each.

8. The foregoing rules will apply *mutatis mutandis* to cases where capital is furnished by more than one financing body.

ANNEXURE A.

EXTRACTS REFERRED TO IN RULE 1.

(i) The propectus for the purpose of inviting subscriptions for providing capital for the line must be submitted to, and approved by, the Government before issue.

(ii) The railway shall be built according to plans and estimates approved by Government, and must conform to the fixed and moving dimensions for the time being prescribed. The gauge of the lines, the route followed, the situation of stations, and details of a similar character shall be subject to the approval of the Government.

(iii) All land which is, in the opinion of Government, required for the construction of the line, will be provided free of charge, including land permanently, or temporarily required for quarrying ballast, for brickfields, and similar purposes.

(iv) The results of existing surveys will be made available to persons applying for concessions under these rules. In cases in which this is considered advisable by Government, fresh surveys will be made at the request of promoters inquiring into the probable prospects of any projected line, on the understanding that no preferential claim to a concession for the construction of the line is thereby established. If permission be eventually given for the construction of any line, the cost of all surveys, whether special surveys or surveys previously made at the cost of or with the approval of Government, shall, at the discretion of Government, be included in the capital cost of the railways. The Government expressly disclaim all responsibility for the accuracy of any survey, plan, estimate or other information supplied by them.

(v) Arrangements will be made with the Government of India for the supply of electric telegraphs and telegraphic appliances and for their maintenance by them at the charges and on the conditions in force for the time being for similar services on State Railways in British India.

(vi) The Government will grant assistance to financing bodies in the shape of a guarantee of interest (4 per cent in Mysore).

(vii) All agreements for lines constructed under these terms shall include a special purchase clause permitting Government to purchase the lines at any time, after giving one year's notice, in the following cases :—

(1) When the Government consider it desirable that the gauge of the branch line should be altered.

(2) When it is desired to convert the branch line into a line of through communication.

(3) When the Government desire to extend the branch line (without altering the gauge or making the line part of a thorough route), and the branch line company is unable or unwilling to supply the necessary capital for such extension.

In the event of a line being purchased under this clause the price payable shall be 25 times the average net earnings (excluding payments on account of guarantee) during the three years preceding the purchase, or 115 per cent of the capital expenditure on the line, whichever may be the greater.

(viii) The agreements shall also include an ordinary purchase clause permitting the Government to purchase the lines at the expiry of 30 years. The price payable on purchase under this clause shall be 25 times the average net annual earnings (excluding payments on account of guarantee) during the three years preceding the purchase, subject to a maximum of 120 per cent and a minimum of 100 per cent of the capital expenditure on the line at the time of purchase.

No. 10759—Ml. 96-13-71, dated 25th April 1914.

Under Section 6 of the Land Acquisition Regulation, VII of 1894, it is hereby declared that the property described hereunder is required for a public purpose, *viz.*, for bettering the sanitation of the locality and construction of mutton stalls, and under Sections 7 and 3 (c) of the said Regulation, the Senior Vice-President, Municipal Council, Bangalore City, is appointed to perform the functions of a Deputy Commissioner under the Land Acquisition Regulation and authorised to take order for the acquisition of the said property:—

The Secretary's Report to the Council.

The Secretary reported to the Council :—

(1) that the following Bills received the assent of His Highness the Maharaja, on the dates noted against them :—

(*a*) The Bill to amend the Mysore Legislative Council Regulation, 1907—11th February 1914.

(*b*) The Mysore Factories Bill—28th March 1914, and

(2) that the following gentlemen took their seats as additional members of the Council, *viz* :—

" K. SHANKARANARAYANA RAO, M.A., B.L.

THE DEWAN.—GENTLEMEN,—This is an occasion of some importance in the life of this Council, since we meet here for the first time with our constitution improved and functions enlarged, under the new Regulation graciously sanctioned by His Highness the Maharaja.

From this day forward, you will exercise the privilege of interpellation and your opportunities for *discussion and criticism* are also enlarged. In other directions also have opportunities been afforded to the leaders of the people to associate themselves in public work with Government in district, town and village. The discussions should be pursued in every case with an eye to determination and action. Investigation and discussion, if persevered in, cannot fail to lead to practical measures for improving the lot of our people.

There is nothing in the criticism that we get in this country as compared with other advanced countries that any one can take exception to. The only difference perhaps is that criticism is more directed against new measures than against stagnation and that the volume of constructive work done in the country, as compared with the amount of criticism levelled against it, is disproportionately small.

In a semi-developed country like ours, we need for the public service every brain that can devise and every hand that can execute measures to foster progress. We should do nothing to discourage effort and action; otherwise the energy and driving power which the country sorely needs may dry up at its very source.

Later on, when the volume of constructive work grows and when the country has produced more thinkers and workers and when driving power becomes the rule and passivity the exception, criticism on the Western party model might become helpful and stimulating.

Till then, I pray you not to carry criticism beyond the point where its constructive value ceases.

Gentlemen,—Our meetings will be more frequent in future and our deliberations will carry more weight on account of the increased representative character of this assembly.

I am voicing the feelings of my colleagues and myself when I say that it gives us great pleasure to welcome so many representatives of the public, and that we esteem it a privilege to be associated with them in the work of this Council.

MR. M. VENKATAKRISHNAYYA :—Sir,—On behalf of myself and my non-official colleagues, I offer my sincere congratulations to the Government on the progressive steps they have taken to bring this Council to its present condition. When the Legislative Council was first vouchsafed to us, it was not thought that we would have the non-official majority we have to-day. I do not think that even in British India such a progressive spirit has b[illegible]own and we cannot but congratulate the Government of Mysore on the adv[illegible]step they have taken in this matter.

In the speech delivered by th[illegible]wan Saheb just now, it is evident that all constructive criticism is invited from the Members of this Hon'ble Council. We on our part promise to Government that we shall never go beyond the constitutional limit to which we can carry our criticisms of the measures of Government and we shall ever try to deserve the confidence that is placed in us by the Government of His Highness the Maharaja. We feel it our duty to co-operate with the Government for the good administration of the country and we shall try to do our best to co-operate with them.

QUESTIONS AND ANSWERS.

MR. B. NARASINGA RAO asked :—

1. That the Government may be pleased to state :—
   (1) When the Retrenchment Committee was formed.
   (2) In what departments retrenchment have been effected and to what extent.
   (3) Whether the Government may not appoint some non-official gentlemen to co-operate in the work of the said Committee.

MR. K. R. SRINIVASIENGAR replied :—
   (1) In 1906. The Committee was reconstituted in 1911.
   (2) A statement* showing the information is furnished to the member.
   (3) At present Government do not consider it necessary to appoint non-officials on the Retrenchment Committee; but any views which non-official gentlemen may communicate in writing will be duly considered by the Committee.

MR. B. NARASINGA RAO asked :—

2. That the Government may be pleased to state :—
   (1) How many applications by Inamdars praying for the settlement of their claim to toddy revenue are pending disposal by Government.
   (2) What is the date of the earliest of such applications.
   (3) How long may it take to dispose of them.

MR. M. KANTARAJ URS replied :—
   (1) About 25 cases are pending disposal.
   (2) 11th July 1907.
   (3) The disposal of the applications depends upon the settlement of certain general principles relative to the settlement of such claims which are receiving special attention. An endeavour is being made to reach an early decision.

MR. B. NARASINGA RAO asked :—

3. That the Government may be pleased to state.—
   (1) How many juvenile offenders are undergoing imprisonment in the Mysore Jails.
   (2) What arrangements have been made to segregate them from other criminals and to give them some kind of education with a view to reform them.

* Printed as Appendix A.

MR. M. KANTARAJ URS replied :—

(1) The number of juvenile offenders undergoing imprisonment is 14 in tl Bangalore Central Jail and none in the Mysore Jail.

(2) Juvenile prisoners are kept separate from other criminals in the Bang lore and Mysore Jails, a portion of the jail building being set apart f the purpose. A literate and well-behaved convict is deputed for instructing this class of prisoners who are employed on various industries, such as gardening, carpentry, carpet-making, etc.

MR. KARNICK KRISHNAMURTHI RAO asked :—

4. Will the Government be pleased to state whether they are aware of the hardships of the people in Bangalore City and Mysore Municipalities by the introduction of water metres and the new rules; and whether they are prepared to minimise, if not abolish the system, as water is essential for the every day necessities of life. A specific few cases are given in the margin.

1. M. Annaji Rao
2. Ramachandra Mudaliar
3. M. K. Krishna Murti Rao
4. S. Narayana Rao
5. K. Matthan

MR. K. R. SRINIVASIENGAR replied :—

Government are not aware of any hardship.

The excess charges on these water-supply systems which are heavy are borne by the general tax-payer instead of, as is usual, by the Municipality or the towns-people. No reason has been shown for altering or abolishing the new rules.

MR. KARNICK KRISHNAMURTHI RAO asked :—

5. Will the Government be pleased to state the number of defalcations in the State in their different branches, also in Bangalore City Municipality, for the last ten years, the amount involved in these defalcations, the method or methods adopted to prevent and detect them and arrangements made to recoup the loss to the State coffers and the balance if any still left unrecouped.

MR. K. R. SRINIVASIENGAR replied :—

Cases of defalcation are dealt with as they occur. No consolidated account of such defalcations has been prepared. Government do not consider it will serve any useful purpose to collect the statistics for the past ten years.

MESSRS. M. VENKATAKRISHNAIYA AND S. R. BALAKRISHNA RAO asked :—

Will the Government be pleased to make a statement on the following points :—

6. (1) What amount of the surplus revenue of the Civil and Military Station has already been placed at the disposal of the Government and for what period ?

(2) Has this been invested, if so, how ?

(3) On what specific purposes is this amount intended to be spent ?

(4) What is the balance of past surplus still due to Government and when is this likely to be handed over to them by the Civil and Military Station ?

(5) Whether a definite policy of appropriating this revenue both accumulated and recurring will not be laid down by the Government and published for the information of the public ?

MR. J. S. CHAKRAVARTI replied :—

(1) Thirty lakhs of rupees out of Rs. 39,22,939-10-8 calculated up to the end of 1910-11.

(2) The amount has been credited to the general revenues for purposes of investment.

(3) *Vide* answer to 6 (5).

(4) The balance due until the end of 1910-11 is Rs. 9,22,939-10-8. The surplus of the subsequent years is pending determination and it is not possible to say when this will be settled.

(5) The surplus becomes merged in the general cash balances. Government have no intention of laying down any definite rules for appropriating this item of revenue for any special purposes.

MESSRS. M. VENKATAKRISHNAIYA AND S. R. BALAKRISHNA RAO asked:—

7. (1) What proposals of the Retrenchment Committee have been accepted by the Government hitherto and what is the saving effected thereby?

(2) What proposals of the same body have been rejected by Government hitherto and what saving would have resulted therefrom?

(3) Whether the Government will consider the desirability of co-opting select non-officials on the Retrenchment Committee in future?

MR. K. R. SRINIVASIENGAR replied:—

(1) and (2) A statement* containing the information is furnished to the member.

(3) *Vide* answer to question No. I (3).

MESSRS. M. VENKATAKRISHNAYYA AND S. R. BALAKRISHNA RAO asked:—

8. What charges have already been sanctioned as against the lumpsum addition of five lakhs under "26 Miscellaneous" in the current year's budget and what schemes, the cost of which is debitable to this provision are now engaging the consideration of Government?

MR. J. S. CHAKRAVARTI replied:—

A statement† showing the charges sanctioned and likely to be incurred is laid on the Council Table.

MESSRS. M. VENKATAKRISHNAYYA AND S. R. BALAKRISHNA RAO asked:—

9. (1) Will the Government be pleased to lay the Government Order on the "Efficiency Audit" on the Council Table?

(2) If not, will the Government be pleased to make a statement of such of the essentials of the constitution of "Efficiency Audit" as have not already been published and of the lines on which the new system is being worked at present.

(3) Will the Government be pleased to consider the desirability of promoting the efficiency of the "Efficiency Audit" itself by appointing a suitable officer to tour about the State and to get into close touch with local conditions for the benefit of the Government and the public alike without entrenching on the legitimate functions of the ordinary departmental authorities?

MR. K. R. SRINIVASIENGAR replied:—

(1) and (2) Government will be glad to allow the members to peruse the order for their private information.

Government do not consider it expedient to place it on the Council Table at this stage.

(3) The suggestion will receive consideration when the necessity for such an appointment is felt.

MESSRS. M. VENKATAKRISHNAYYA AND S. R. BALAKRISHNA RAO asked:—

10. (1) Whether the reorganization of the Civil Courts establishments is engaging the consideration of Government?

(2) If not, whether in view of the low scale of pay fixed for these establishments many years ago, the rise in prices of foodstuffs and the liberal rates of pay granted within recent years to members of revenue and other establishments, the question will not be seriously considered at an early date?

MR. H. V. NANJUNDAYYA replied:—

(1) and (2). Government have recently passed orders reorganizing the Process establishments of the Civil Courts at an extra cost of Rs. 8,100 per year. A scheme for the reorganization of the other establishments of the Civil Courts is understood to be engaging the consideration of the Chief Court.

A Bill further to amend the Local Boards Regulation, 1902.

MR. M. KANTARAJ URS.—Sir,—The motion standing in my name is for leave being granted to introduce a Bill to further amend the Mysore Local Boards Regulation, 1902. The object of this Bill is to empower the levy of a separate shop tax in Unions. At present, the Local Boards Regulation authorises the levy of only house tax in Unions, as shops and warehouses are included in the term 'houses' under the definition of a 'house' given in Section 20 of the Regulation.

The main object of this Bill is thus to take steps to improve the resources of an important unit in our system of local Self-Government, *viz.*, the Unions. I need not dwell on the necessity which exists for augmenting the resources of our local bodies. This question has become one of practical significance in British India, as well as here, in view of the larger functions which public opinion demands from District Boards and other self-governing bodies. Their slender financial resources make it difficult for them to perform even their statutory functions, much less to enlarge them. You will therefore recognise that any measure, which tends to put more funds into the hands of the District Boards, etc., is a step in the right direction.

It is perhaps within the knowledge of you all that in villages which have not been constituted into Unions, shop tax is being levied, under the Mohatarfa Rules, in addition to house tax, cart and oil-mill tax. The basis of taxation of shops in villages is different from that of the house tax, the former being based on the nature of the trade and the latter upon the nature of the property. If a village is constituted into a Union, the Local Boards Regulation applies so far as local taxation is concerned and shop tax ceases to be levied therein in virtue of Rule 45 (2) of the Local Boards Rules. The rates of house tax provided in the Local Boards Regulation being lower than the mohatarfa shop tax, it follows that the income from a Union under this head of taxation will be considerably lower than the income from this source if the village is not converted into a Union. This is certainly an anomaly and certan District Boards therefore suggested that the law may be amended so that the mohatarfa shop tax may be levied in Unions.

After careful consideration of the question, Government have come to the conclusion that there is a great deal to be said in favour of the proposal. There is no doubt that the income of the Unions in the State is unduly low, the highest average annual income of a Union in the State in 1911-12 having been only Rs. 735 and the lowest Rs. 184, thus showing the necessity to increase the sources of income as much as possible. Another disadvantage of the existing practice is that it does not enable the authorities to exercise any discrimination in assessing houses and shops in Unions. Even a shop earning a large revenue has to be assessed at the same rate as an ordinary dwelling house; and thus the incidence of taxation falls more heavily on house-owners than on merchants and traders.

For these reasons Government have decided to empower the District Boards to levy shop tax in Unions in addition to the house tax by amending Section 20 of the Regulation suitably. The rates of shop tax inserted in the Bill are lower than those recognized by the Mohatarfa Rules, in view of the proposed levy of shop tax being in addition to the house tax in Unions.

MR. K. R. SRINIVASIENGAR.—Sir,—After the lucid and exhaustive speech in which the Second Member of Council has explained the objects and the necessity of the Bill there is little for me to add. It is an admitted and well-known fact that the resources of our District Boards are very limited and unless their finances are improved, it will be impossible for them to meet the present requirements of the various Unions in respect of sanitation, drainage, water-supply, etc. There is nothing new or novel in the proposed tax as shop-tax is now being recovered in all villages which are not formed into Unions. It is not, therefore, apparent why this should not be done in the Unions also. On the other hand, there is all the greater reason to strengthen their financial position by the proposed tax. With these few remarks, I beg to second the motion.

The motion was put to vote and passed.

The Bill further to amend the Mysore Court Fees Regulation.

MR. H. V. NANJUNDAYYA.—Sir,—I beg to move that the Bill further to amend the Mysore Court Fees Regulation be passed. The Bill is a very short one and is to this effect :—

"The words 'or refund in value for' shall be inserted after the words 'the renewal of' in sub-section (c) of Section 35."

This is only a formal motion as the bill has been before this Council previously. I beg that the Bill be passed.

MR. C. S. DORASWAMY IYER.—I second it.

The motion was put to vote and passed.

The Bill to amend the Mysore Mines Regulation, 1906.

MR. H. V. NANJUNDAYYA.—Sir,—I beg to move that the Bill to amend the Mysore Mines Regulation, 1906, be passed. The amendment is in respect of Sections 17, 18 and 19, and is as follows :—

"1. The following shall be substituted for Section 17, *viz.*,

'17. The Superintendent of Police for the Kolar Gold Fields may, by order in writing, direct any person, whose residence within such area as may be notified by Government from time to time is considered undesirable, to quit the said area within twenty-four hours and such person shall not, after the lapse of the said time, remain at or re-enter the said area without the permission of the said Superintendent of Police.

An order passed under this section may be cancelled by the Superintendent of Police or by the District Magistrate.'

2. 'The last sentence of Section 18 beginning with the word 'any' and ending with '19' shall be omitted.

3. In Section 19 of the said Regulation, for the words 'an offence' in the first line, the words 'any act prohibited' shall be substituted."

This Bill also has passed through all its preliminary stages and it only remains for this Council to pass it finally. So I beg that this Bill be passed.

MR. C. SRIKANTESVARA AIYER.—I second it.

The motion was put to vote and passed.

The Bill further to amend the Code of Civil Procedure, 1911.

MR. H. V. NANJUNDAYYA.—Sir,—I beg to move that the Bill further to amend the Code of Civil Procedure, 1911, be read in Council.

This measure refers to the partition of estates situated in Municipalities. It has been brought before Government often that where partitions of small houses situated within Municipalities, have to be effected, sub-divisions become often so minute as to prevent proper ventilation to the portions and the whole area is rendered insanitary. The provision that we want to insert in the Code is to the following effect :—

"The following new section shall be added after Section 54 of the Regulation as Section 54 A :—

'54 A (1) Where a Civil Court passes a decree for the partition of a building situate within the limits of a Municipality to which the provisions of this section have been declared by Government by a notification in the official Gazette to apply, the partition shall be made by the President of the Municipality in accordance with the law for the time being in force for the execution of such decrees.

(2) It shall be competent for the President executing such decrees to exercise the powers conferred by Sections 2 and 3 of the Partition Regulation, 1913, notwithstanding that the sharers or any of them have not asked for a sale of the property.

(3) In executing a decree under this section the President of the Municipality shall be deemed to be acting judicially.

(4) An appeal shall lie from the orders passed by the President in those cases in which an appeal would have been allowed if the orders had been passed by the Court which passed the decree to the Court to which appeals ordinarily lie from that Court.'"

You are already aware, I believe, that there is a provision in the Civil Procedure Code as at present in force for the partition of estates paying revenue to Government. In such cases, power is given to the Civil Court to send the partition decrees to the Deputy Commissioner for execution. There are various rules for the sub-division of numbers, laid down in the Revenue Code and the Revenue Rules, and the Deputy Commissioner pays attention to these rules and exercises his power in the best manner possible in accordance with these rules. There is no such provision in the Civil Procedure Code referring to house properties situated within Municipalities. Lately, you are aware, that a Regulation has been passed to give power to Civil Courts to effect partitions of property in certain cases. That is, where sharers representing more than half the value of the property desire it, the partition instead of being made by mere division of the number, may be made in other ways; for instance, where the division becomes too minute, the property may be either sold by auction or allotted to one sharer, etc. Now, it is proposed that just as decrees for partition of revenue paying estates may be sent to the Deputy Commissioner for execution, the decree for the partition of houses may be sent to the President of a Municipality if situated within a Municipality. It is, however, not proposed to make this a universal rule applicable to all Municipalities. Government have reserved the power to extend the provision to such Municipalities as they may deem fit to bring under the operation of this provision.

One other alteration not covered by the Partition Regulation has been made and that is:—In the Partition Regulation, a partition may be made only on the application or consent of the larger proportion of share-holders. But it is proposed to take away that restriction in this case. Probably the Municipal President will have to deal with very small houses and to make it conditional that he should exercise the power only with the consent of the parties would, to a great extent, reduce the provision to nullity. It is on that ground that we propose to give discretion to the President to exercise the powers under the Partition Regulation on his own initiative, without any consent or application. We also propose to have the same provisions about appeals in respect of these proceedings taken by the Municipal President for execution also. The President, when executing such decrees will be considered to be a Judicial officer and appeals will lie from his orders to the Court to which appeals from the Court passing the decree will ordinarily lie.

These are the provisions embodied in the clause now submitted for your approval. I beg therefore that this Bill be read in Council.

MR. K. P. PUTTANNA CHETTY.—Sir,—I beg to second the motion. In doing so, I desire to state that this provision is intended to apply to 4,000 insanitary houses in the Bangalore City. Such a rule has been in force in other parts of India and will be introduced here none too soon. I should have supported this motion even if I were not the President of the Bangalore City Municipality because the provision is justifiable on every ground both legal and sanitary. I would therefore second the motion.

MR. S. SEETHARAMAIYA.—Sir,—The Regulation of 1913 has made provision for preventing property from being divided into small minute portions and has laid down that if the parties interested in the moiety of the property or more apply to the Court for the property being sold instead of being sub-divided, it is only then that power is given to the Court to sell the property by auction. In the absence of the application for sale, the property should only be sub-divided, however minute the sub-division might be. That is not a sufficient safeguard against too minute divisions of properties. This provision supplies the need completely by giving power to the Court to refer the matter to the President of the Municipality in the cases of houses situated within the Municipality, where experience has shown that very special care should be taken in keeping them in good sanitary condition. If in the Municipalities, divisions of houses are allowed at the whims and fancies of the parties surely all sanitary principles would be completely violated and it is on that account we have been seeing that most of the important cities and towns have

been mostly in a congested state and a lot of trouble has to be taken in consequence to open them out. This provision will, I think, therefore, be a very wholesome safeguard against such congestion. I would therefore strongly support it.

The motion was put to vote and passed.

MR. H. V. NANJUNDAYYA.—Sir,—Before putting the next motion to the Council, I beg to know whether in the opinion of this Council it is quite necessary to refer the Bill to a Select Committee. Regulation III of 1913, that is the Partition Regulation, has already accepted the principles and passed them into law. Section 2 of that Regulation runs as follows :—

Power to Court to order sale instead of division in partition suits.

"2. Whenever in any suit for partition in which, if instituted prior to the commencement of this Regulation, a decree for partition might have been made, it appears to the Court that, by reason of the nature of the property to which the suit relates, or of the number of the shareholders therein, or of any other special circumstance, a division of the property cannot reasonably or conveniently be made, and that a sale of the property and distribution of the proceeds would be more beneficial for all the shareholders, the Court may, if it thinks fit, on the request of any of such shareholders interested individually or collectively to the extent of one moiety or upwards, direct a sale of the property and a distribution of the proceeds."

Then there are two or three other provisions which lay down alternative modes of procedure, *viz.*—

Procedure when sharer undertakes to buy.

"3. (1) If, in any case in which the Court is requested under the last foregoing section to direct a sale, any other shareholder applies for leave to buy at a valuation the share or shares of the party or parties asking for a sale, the Court shall order a valuation of the share or shares in such manner as it may think fit and offer to sell the same to such shareholder at the price so ascertained, and may give all necessary and proper directions in that behalf.

(2) If two or more shareholders severally apply for leave to buy as provided in sub-section (1), the Court shall order a sale of the share or shares to the shareholder who offers to pay the highest price above the valuation made by the Court.

(3) If no such shareholder is willing to buy such share or shares at the price so ascertained, the applicant or applicants shall be liable to pay all costs of or incident to the application or applications.

Partition suit by transferee of share in dwelling house.

4. (1) Where a share of a dwelling house belonging to an undivided family has been transferred to a person who is not a member of such family and such transferee sues for partition the Court shall, if any member of the family being a shareholder shall undertake to buy the share of such transferee, make a valuation of such share in such manner as it thinks fit, and direct the sale of such share to such shareholder and may give all necessary and proper directions in that behalf.

(2) If in any case described in sub-section (1) two or more members of the family being such shareholders severally undertake to buy such share, the Court shall follow the procedure prescribed by sub-section (2) of the last foregoing section."

This is only a particular case of the application of these principles. We seek to apply it in a particular manner in the case of Municipalities. The only important innovation that is sought to be introduced now is that the condition that the shareholders interested individually or collectively to the extent of one moiety should consent—is left out. If this Council agrees that it is unnecessary to further consider the matter and that we may safely pass it at once, I would move that the Rules of Business be suspended and that the Bill be taken into consideration at once. But if it is the sense of this Council that it had better go to the Select Committee, I shall have no objection.

MR. B. NARASINGA RAO.—Sir,—We have already accepted the principles of the Partition Regulation. Under the proposed Bill it is also provided that if the parties agree to a particular division, the Municipal President may take the desire of the parties into consideration by properly seeing to the sanitation, etc., of the

property. So, I don't think that any useful propose is served by referring it to the Committee.

MR. S. R. BALAKRISHNA RAO.—Sir,—With regard to this, I have got one doubt. The Partition Regulation mentions certain circumstances which should exist before an order for partition can be made; but in the present Regulation no mention is made as to what circumstances should determine the necessity or otherwise of a partition. I think, unless the present Bill makes provision by which the powers of the President are defined as to what conditions are necessary for effecting a partition, the Bill will be defective and the partition provisions of Regulation III of 1913 will be of no avail.

MR. H. V. NANJUNDAYYA.—The whole of Section 2 of the Regulation will apply.

MR. S. R. BALAKRISHNA RAO.—But the circumstances that prevent the revenue paying estate from being partitioned do not apply here. Moreover the expression "Any other circumstances" is not defined. I think it is better that it should go before a Select Committee.

MR. C. SRINIVASIENGAR.—Section 2 refers to the procedure on the application of the share-holders. Section 3 speaks of the action to be taken after such application is made. Whereas in the proposed Bill there may or may not be an application. Even without the application the Municipal President may take action It seems to me better to refer the Bill to a Select Committee.

MR. H. V. NANJUNDAYYA.—Sir,—As there is a difference of opinion on the question of shortening the procedure, I beg to move that the Bill be referred to a Select Committee consisting of the following members, *viz.*—

Messrs. K. P. Puttanna Chetty, C. Sreenivasiengar, S. R. Balakrishna Rao, C. S. Doraswamy Iyer and myself.

MR. K. P. PUTTANNA CHETTY.—I second it.

The motion was put to vote and passed.

The bill to provide for grant of Probate of Wills and Letters of Administration to the Estate of certain deceased persons.

MR. H. V. NANJUNDAYYA.—Sir,—In moving that the report of the Select Committee on the Probate and Administration Bill and the Bill as amended by them be taken into consideration. I shall first of all read the Select Committee's report which is as follows:—

We, the members of the above Committee, have the honour to state that we have carefully considered the Bill.

The only alteration of importance is in clause 87 of the Bill. The express mention of certain causes of action only as exceptions would unsettle the law as understood at present, and introduce uncertainly as to cases not mentioned, and so we have substituted more general phraseology, leaving it to the courts to apply the rules of law in force intact. The words substituted are "except causes of action that are of a strictly personal nature or do not survive under any rule of law" for the words "except causes of action for defamation, assault as defined in the Indian Penal Code as in force in Mysore, or other personal injuries not causing the death of the party." The other alterations made by us are of a purely verbal nature.

Some members of the Committee were at first inclined to doubt the necessity for the measure; but after considering all the provisions in detail, we are all agreed that it would be useful enactment and may be passed into law.

As the Bill has not been materially altered, it need not be republished in the Gazette.

It has been signed by myself and by Messrs. C. Srikantesvara Aiyar, C. S. Doraswamy Iyer and B. Narasinga Rao. But Mr. C. Srinivasiengar has remarked at the foot of the report as follows:—"I approve the report with the observation that there is something in the bill that promises to be beneficial while there seems nothing in it that threatens to be harmful. Mysore is not in urgent need of this

measure, but all the same it would at least not be any the worse for it." His opinion is neither in favour, nor quite against the opinion of the majority. But all the same the support he gives to the Bill is very valuable considering the weight to be attached to any opinion given by him.

We have made only one important alteration in clause 87 of the Bill.

Clause 87 reads as follows:—

Demands and rights of suit of or against deceased survive to and against executor or administrator.

87. "All demands whatsoever, and all rights to prosecute or defend any suit or other proceeding, existing in favour of or against a person at the time of his decease, survive to and against his executors or administrators, except causes of action for defamation, assault as defined in the Indian Penal Code as in force in Mysore, or other personal injuries not causing the death of the party, and except also cases where, after the death of the party, the relief sought could not be enjoyed, or granting it would be nugatory."

Three classes of cases are given as exceptions and our mentioning them would mean that all other cases of 'demands whatsoever, etc.,' survive to and against his executors. In order to word it in such a manner that no change in the substantive law might be imported the Select Committee changed the phraseology to 'except causes of action that are of a strictly personal nature or that do not survive under any other rule of law.'. A few verbal alterations here and there are also made so as not to make any change in the draft framed on the model of the British enactment.

I therefore beg to move that this report of the Select Committee with the Bill as amended by them be taken into consideration.

Mr. C. S. Doraswami Iyer.—Sir,—I beg to second the motion that has been placed before you just now. But being one that was in the Select Committee and as responsible partly for the report sent up I wish to make a few observations as regards the measure itself as to whether it is one which is profitable to introduce into Mysore, whether it serves any useful purpose or whether it is introduced simply because it is a harmless measure. It may not be out of place to note that this Probate and Administration Regulation is intended to cover cases where a representation of a deceased Hindu, Buddhist, Jain or other person exempted from the operation of the Indian Succession Act, has to be done effectively and completely and also I may say, conclusively. There are, no doubt, certain other Regulations which do approach in that direction to a certain extent, for instance, the Succession Certificate Act which is already in the Statute Book of Mysore. But that does not empower a certificate holder to administer the estate; but only empowers him to collect the debts which are in the schedule attached to the certificate. Then there is the Hindu Wills Act which even in British India has got a limited territorial application and for obvious reasons has not been introduced in Mysore at all. Even that affects only the testamentary power. From a fiscal point of view also, the measure does not work any hardship because you are aware that property of the value of less than Rs. 1,000 is exempted from taxation already. The two per cent that has to be paid, need not be paid if the property is worth less than Rs. 1,000. There is another advantage. For the same estate for which a succession certificate has been granted, the duty that is paid on the certificate is deducted in calculating the duty that is payable on the grant of letters of administration. So that there is this double advantage by this measure. There is a voluntary tax as it were by the people themselves when succeeding to the estates of wealthy persons—the tax that is paid depending upon the wealth or the property left by the deceased—and there is also the conclusive title. I therefore think that this measure is not only harmless but also useful.

With these observations, I heartily second the motion.

Mr. S. R. Balakrishna Rao.—Sir,—I have got one small verbal alteration to suggest. In the clause the words "except causes of action that are of a *strictly* personal nature," occur. I would omit "strictly." There are no causes of action that are "strictly" of a personal nature at one time and not strictly so at another time. I would therefore omit the word "strictly." I have no objection to adopt the word "purely" or "exclusively" instead.

MR. B. NARASINGA RAO.—Or, we might omit the word "strictly" altogether.

MR. S. SEETHARAMAIYA.—"Solely" might be substituted for "strictly."

After some slight discussion it was decided to retain the word "strictly."

MR. H. V. NANJUNDAYYA.—Sir,—I now beg to move that in para 1 of clause 1 of the Bill the figure "14" be inserted after the figure "19" and that in para 3 of clause 1, the words "July 1914" be inserted after the word "cf."

MR. C. S. DORASWAMY IYER.—I second it.

The motion was put to vote and passed.

MR. H. V. NANJUNDAYYA.—Sir,—I next move that the Bill as amended be passed.

MR. C. S. DORASWAMY IYER.—I second it.

The motion was put to vote and passed.

Amendment of Rule 58 of the Rules for the conduct of business of the Mysore Legislative Council.

MR. H. V. NANJUNDAYYA.—Sir,—the next motion in my name on the agenda is to modify Rule 58 of the Rules for the conduct of business of the Mysore Legislative Council about admission of strangers to meetings of the Council. The first sentence of Rule 58 as it now stands reads as follows:—

"Persons desirous of admission into the Council Chamber during the sittings of Council shall make application to the Secretary, who will take orders of the President thereon." Under this rule every application for admission has to be sanctioned, by the President. It is now proposed to modify this rule by the omission of the words "who will take orders of the President thereon" so that the Secretary may himself be able to dispose of such applications and issue the tickets according to the number of seats available. In case of any doubt or difficulty he will take orders from the President. I therefore beg to move that in Rule 58 of the Rules for the conduct of business of the Mysore Legislative Council the words "who will take orders of the President thereon" occurring at the end of the first sentence be omitted.

MR. K. R. SRINIVASIENGAR.—I second it.

The motion was put to vote and passed.

The meeting then terminated.

By Order,
S. P. RAJAGOPALACHARI,
Secretary, Mysore Legislative Council.

No. R. 8626—*Ft.* 95-13-5, *dated 4th May* 1914.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900), that, from the 1st June 1914, the area, the boundaries of which are set forth in the schedule annexed to this notification shall be deemed to be a "State Forest," subject to the exercise of rights specified at foot thereof :—

SCHEDULE.

District	Taluk, hobli and village	Approximate area	Name of block
Bangalore	Kankanhalli Taluk, Ooyanballi hobli. Villages. 1. Purushagondanahalli, 2. Harosivanahalli, 3. Bennagodu.	1·60 square miles	Chunchi West

Situation.—A tract of jungle in the south of the Kankanhalli Taluk situated between the Chillandvadi State Forest and the Arkavati River.

BOUNDARIES.

North.—Starting from the south-west corner of Survey No. 51 of Purushagondanahalli, the line runs east along the south sides of Survey Nos. 51 and 52 and through Survey No. 17 of the same village for about 32 chains till it meets the Arkavati River.

East.—Thence along the right bank of the Arkavati River as far as the Chillandvadi State Forest Boundary at the south-east corner of the Bennagodu village.

South.—Thence it follows the southern boundary of the Bennagodu village for a distance of about 90 chains to a point about 14 chains south-east from the south-east corner of Survey No. 13 of the same village.

No. 11372—*Ml.* 160-12-12, *dated 12th May* 1914.

Whereas by a proclamation dated the 10th March 1913, published in the English issues of the *Mysore Gazette* of the 13th, 20th and 27th March 1913, and in the Kannada issues of the 1st, 8th and 15th May 1913, and posted up in conspicuous places in the local area concerned, it was duly announced under Section 8 of the Mysore Municipal Regulation, VII of 1906, that it was proposed to alter the limits of the Bangalore City Municipality as described in the said proclamation; and whereas no objections have been preferred against the said proposal, the Government of His Highness the Maharaja of Mysore, in exercise of the powers vested in them by Section 4 (1) of the said Regulation, are pleased to alter the limits of the Bangalore City Municipality and to declare that the boundary of the said Municipality shall be considered to be as described hereunder:—

2. The boundary line of the City of Bangalore commences at the boundary stone No. VII—I of the Civil and Military Station of Bangalore, then runs along the western boundary of the Civil and Military Station, touching the Station boundary stones Nos. No. 11372—*Ml.* 160-12-12, *dated* 12*th May* 1914.

Whereas by a proclamation dated the 10th March 1913, published in the English issues of the *Mysore Gazette* of the 13th, 20th and 27th March 1913, and in the Kannada issues of the 1st, 8th and 15th May 1913, and posted up in conspicuous places in the local area concerned, it was duly announced under Section 8 of the Mysore Municipal Regulation, VII of 1906, that it was proposed to alter the limits of the Bangalore City Municipality as described in the said proclamation; and whereas no objections have been preferred against the said proposal, the Government of His Highness the Maharaja of Mysore, in exercise of the powers vested in them by Section 4 (1) of the said Regulation, are pleased to alter the limits of the Bangalore City Municipality and to declare that the boundary of the said Municipality shall be considered to be as described hereunder :—

2. The boundary line of the City of Bangalore commences at the boundary stone No. VII—I of the Civil and Military Station of Bangalore, then runs along the western boundary of the Civil and Military Station, touching the Station boundary stones Nos. VII-II, VII-III, VII-IV, VII-V, VII-VI, VII, VIII, IX, X, XI, XII, XIII, XIV, XIV-I, XIV-II, XIV-III, XIV-IV, referred to in Government Notification No. G. 2546—G. M. 259-09-8, dated the 24th October 1910, XV, XVI, XVII, XVIII, XIX, XX and XXI, as described in the above cited notifications.

3. The line then runs along the eastern boundaries of the villages of Doddabylakhana and Annipur till it meets the City boundary stone No. 1. Thence it runs westward along the southern boundaries of Annipur, the Lal-Bagh and again Annipur till it meets the City boundary stone No. 2 at the junction of the Siddapur boundary line. From this point it runs southward along the eastern boundary lines of the Lal-Bagh Upparhalli village excluding its hamlet, and meets the City boundary stone No. 3 at the junction of the boundary line of Byrasandra village. Thence it runs westward along the southern boundary line of Lal-Bagh Upparhalli village and meets the City boundary stone No. 4 at the north-west corner of Survey No. 102 of Byrasandra village. Thence it follows the western boundary of this village and meets the City boundary stone No. 5 at the junction of the boundary line of Dasarahalli village; and then turns westward and passes along the northern boundary of Survey No. 7 of Dasarahalli and it then follows the western boundary of the said Survey No. 7 and the northern and western boundaries of No. 6 till it reaches the north-east corner of No. 2. Thence it turns westward passing along the northern boundaries of Nos. 2, 1 and 10 till it meets the boundary line Yadayur-Nagasandra village. Thence it turns northward and follows the eastern boundary of No. 2 of this village till it meets the City boundary stone No. 6 at the north-east corner of the said No. 2. Then it skirts along the northern and western boundaries of the said No. 2, part of the western boundary No. 1, northern boundaries of the village site and of Survey Nos. 43 and 42 till it meets the City boundary stone No. 7, at the north-west corner of Survey No. 42. Then it turns northward following the eastern boundaries of Nos. 39 and 40 of the said village; and thence it passes along the north-east boundary of Survey No. 12 and eastern boundaries of Nos. 11, 10 and 8 of Sunkenahalli village till it reaches the City boundary stone No. 8 at the north-east corner of Survey No. 8. Then it follows the northern boundary of No. 8, and part of the eastern boundary and northern boundary of Survey No. 32, meeting the City boundary stone No. 9 at the junction of Gavipur village boundary. Thence it runs along the eastern and northern boundaries of Survey No. 48 and the eastern boundary of No. 52 of Gavipur till it meets City boundary stone No. 10 at the north-east corner of No. 52. Then it follows the northern boundaries of Nos. 52 and 51; eastern, northern and western boundaries of No. 1 and part of the northern boundary of No. 9, till it reaches the City boundary stone No. 11, at the south-east corner of Survey No. 8. Then it follows the eastern and northern boundaries of No. 8, part of the northern boundary of No. 7 and parts of the eastern and northern boundaries of No. 13, till it reaches the City boundary stone No. 12, at the angle on the north side of the said No. 13, at the junction of Survey No. 14. Thence it passes northward following the eastern boundaries of Nos. 14 and 15 of the said village. Then it continues northward skirting the eastern boundary of No. 10, part of southern boundary and eastern boundary of No. 11, and the eastern boundary of No. 23 of Karithimmanahalli village, till it reaches the City boundary stone No. 13, at the north-east corner of the said Survey No. 23. Then it follows the northern boundary of the said No. 23 and reaches the City boundary stone No. 14, at the north-west corner of the same survey number. From this point it skirts along the eastern and northern boundaries of Survey No. 1, and meets the Mysore road near the City boundary stone No. 15, at the north-west corner of the same survey number and at the junction of the Kempapur Agrahar boundary. Thence the line takes the northerly direction along the eastern boundary of Kempapur Agrahar village, touching the City boundary stones Nos. 16, 17, 18 and 19, whence it turns westward, and then taking the northerly direction, passes along the western boundary lines of Hanumanthapur and Barigaimuddanahalli villages, crossing the Magadi road and touching the City

boundary stones Nos. 20 and 21. Thence it follows the western boundary line of Hanumanthapur village till it reaches the City boundary stone No. 22 at the south-east corner of Survey No. 60 of Ketamaranahalli village.

Then the line follows the eastern and northern boundaries of No. 60; the northern boundaries of Nos. 59, 58 and 57 of the said village till it meets the City boundary stone No. 23 at the north-west corner of the said No. 57. Thence it runs northward and passes along the eastern boundary and part of the northern boundary of No. 52, till it meets the City boundary stone No. 24 at the south-east corner of No. 51. Thence it turns northward skirting round the eastern and northern boundaries of No. 51 and northern boundary of No. 78 till it meets the City boundary stone No. 25 at the junction of the feeder channel. Then it follows the north-eastern boundary of No. 78; southern and south-eastern boundaries of No. 39; and southern boundaries of Nos. 42 and 43 till it meets the City boundary stone No. 26 at the south-east corner of No. 43. It then turns northward along the eastern boundaries of Nos. 43 and 41 and crosses the Railway line and meets the City boundary stone No. 27 whence it turns northward and passes along the eastern boundary of the Railway line till it meets the City boundary stone No. 28 at the north-west corner of Survey No. 32 of the said Ketamaranahalli village.

From this point the boundary runs in a northerly direction along the western edge of the west feeder channel of the Sankey tank till it meets the City boundary stone No. 29 at the south-west corner of the boundary of the Indian Institute of Science. Then it turns eastward in a straight line along the southern boundary line of the Indian Institute of Science till it meets the City boundary stone No. 30 at the junction of the Gordon Avenue road and Tumkur road in the Water Works village limits. Then it turns south-east and runs along the east side of the Tumkur road till it meets the City boundary stone No. 31, at the point where it meets the water course to the west of the "Pontoon Shed" and thence it runs along the northern side of the said water course till it meets the City boundary stone No. 32 in the bed of the Sankey tank. Then it turns northward along the eastern boundary of the said Institute of Science till it meets the City boundary stone No. 33 on the Gordon Avenue road, near the bridge over the north feeder channel of the Sankey tank. Then it runs due east along the southern side of the Gordon Avenue road, crossing the Bellary road and touching the City boundary stone No. 34 at the junction of the Gordon Avenue road and the boundary of the "Raja Mahal village" and then it takes south-easterly direction along the said Avenue road till it meets the City boundary stone No. 35 at the junction of the east feeder channel of the Sankey tank. Thence it passes northward along the said channel till it meets the City boundary stone No. 36 at the north-west corner of the village of Munireddipalya *alias* Matadahalli. Then it passes along the northern boundary of the said village; southern boundaries of Survey Nos. 8 and 7 and part of northern boundary of No. 6 till it meets the City boundary stone No. 37 at the north-east corner of No. 6 of the said village. Thence it runs southward along the western boundary of the Military Byadarahalli village till it meets the City boundary stone No. 38 at the north-west corner of Survey No. 5 of Munireddipalya. Then it skirts round the northern and eastern boundaries of Survey No. 5 and part of the eastern boundary of No. 4 of Munireddipalya till it meets the Station boundary stone No. VII—I at the south-east corner of the said Survey No. 4.

APPROPRIATION REPORT

ON

THE ACCOUNTS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

FOR

1912-13

(Ended June 1913.)

(NOTE.—Throughout this report the figures given are, unless otherwise indicated, in thousands of Rupees omitting 000.)

General Review.

In the explanatory memorandum published with the budget for 1912-13, it was explained that the estimates of revenue were framed with reference to the effect of the seasonal conditions, so far as they were known at the threshold of the year, on the agricultual prospects of the year, and on the assumption of average conditions for the future. Just before the commencement of the year the rainfall was deficient, the *mungar* showers of April and May having somewhat failed. With the advent of the south-west monsoon, however, there was some improvement in the situation, and agricultural operations were everywhere in progress. With this satisfactory change in the agricultural prospects, the estimate of Land Revenue, was framed on the basis of the percentage of collections in average years to the gross demand for the year, including the arrears. The estimate of Excise revenne was fairly close to the realisations of the two preceding years. Nearly 60 per cent of the revenue from Forest being derived from a single product, *viz.*, Sandalwood, it was inevitable that the revenue from Forests should be subject to considerable fluctuations. The Forest revenue was for this reason fixed with reference to the average of a number of years and not with reference to the actuals of the immediately preceding year. The estimate in respect of Assessed Taxes, Stamps and Registration were taken at the usual figure. The estimate of Mining revenue was the same as that of 1911-12 as there were no indications of any variation in the output of gold. On account of the larger realisations on investments and the collection of a part of the previous year's dues, the estimate of Interest stood at 15,07 against 8,35 in the previous year. The estimate of the net earnings from State railways was framed on the basis of gross revenue for a year of average agricultural prospects and normal trade conditions and on the usual percentage of working expenses to gross revenue. The Cauvery Power Scheme revenue was taken slightly in advance of the estimate of 1911-12 on account of fresh power and lighting installations.

2. The expenditure side of the budget was the embodiment of expected progress and development on all sides. Provisions towards the construction of the Cauvery reservoir at Kannambadi, the addition of a fourth installation to the Cauvery Power Scheme for increasing the generating power of the Sir K. Sheshadri Iyer power works, the revival of activity in State railway construction and the laying out of a line of electric tramways in Bangalore were the striking features of the budget of the year under review. Besides these grants aggregating 43,00, special grants for extension of general and technical education and for the work ef the Economic Conference and its three committees and numerous grants for introducing improvements and starting new works in almost all the departments of the State also figured largely in the financial programme of the year.

3. As a result of the anticipation of revenue and programme of expenditure indicated above, the estimates of revenue and expenditure were placed at 244,60 and 278,06 respectively resulting in a deficit of 33,46. Omitting, however, the special grants aggregating to 43,00 on account of capital works, the ordinary budget worked out to a surplus of 9,54.

4. In the actual result of the year's transactions, however, the total revenue and expenditure of the year aggregated 276,06 and 240,78 respectively, and far from there being a net outgoing of cash to the extent of 33,46, there was an addition of 35,28 to the balances from the revenues of the year. The improvement from the budget forecast amounted therefore to 68,74, and this was contributed to by an increase of 31,46 over the estimate on the revenue side and savings and lapses on the expenditure side aggregating 37,28.

5. The rainfall of the year measured 46·08 inches as against 33·22 inches in the previous year and 38·36 inches, the average of the last 31 years. Though the *mungar* rains and the south-west monsoon commenced well in all the districts, they were somewhat deficient in parts of Kolar, Bangalore, Tumkur and Mysore districts and caused some anxiety which was however dispelled by the subsequent heavy rains from July to the end of October. Though excess of rainfall in parts of Hassan and Chitaldrug districts slightly damaged the standing crops, the important crops throve well and yielded more than average harvests. There was also a general rise in the prices of food grains and some increase in the area cropped.

6. Thanks to these favourable conditions, there were increases of revenue in almost all the principal heads of revenue, but the most noticeable feature of the year's transactions was the increase of Forest revenue from an estimate of 18,63 to 32,94 as a result of the exceptionally favourable rates realised at the sandalwood sales. The favourable conditions of trade were reflected in an increased realisation from State railways. There were also small improvements in the Mining and Cauvery Power Scheme revenues.

7. On the expenditure side against a grant of 43 lakhs for the several items of special capital works which were on the programme of Government, there was a lapse of about 25 lakhs as the arrangements required to be completed before starting these works were delayed for various reasons. There were other small lapses and savings under the ordinary heads of account owing chiefly to savings in the salaries and expenses of civil departments and the grants of the medical and educational departments not being fully utilized.

Changes in Classification.

8. The Chemical Examiner and Bacteriologist to the Government having been appointed as Superintendent of the newly created Public Health Institute, the separate minor head "Chemical Examiner and Bacteriologist" was omitted and included under a new sub-head "Public Health Institute" opened under Sanitation and Vaccination. The projected line of electric tramways in Bangalore and the grant of 7 lakhs included for it in the budget necessitated the opening of a new major head "Bangalore Electric Tramways."

Summary of Results.

9. The following summary of budget and account figures shows variations between the budget and the actuals of 1912-13 and also between the actuals of 1911-12 and 1912-13. These variations are discussed below in a general way, and in greater detail in the review of each head of account.

Comparison of Actuals.

10. The aggregate revenue realised in 1912-13 was 25,17 in excess of that in 1911-12 and the aggregate expenditure 8,77 more than that in 1911-12. The improvement under revenue was chiefly due to the increased receipts under Forest (10,88), Excise (5,33), Interest on Loan and arrears of Revenue (2,95) Profit or Loss (3,30) and Railways (2,84). There were other smaller increases which were to some extent counter-balanced by a fall in Land Revenue (1,48) due to a smaller demand on account of arrears. The variation under Forest was the result of the record price of Rs. 940 per ton secured in the sandalwood auction sales. Keener competition in excise contracts and increased consumption of arrack and toddy brought about an increase in the Excise revenue. On account of the receipt of accumulated interest of past years on some of the larger loans, and the realisation during the year of a

portion of the interest on investments due for the previous year, the realisations under *Interest* and *Profit or Loss* exceeded those of the previous year by more than 6 lakhs. The increase under Railways was the result of increased passenger traffic and heavier bookings of food grains, cotton seeds and manganese ore to stations and ports on foreign railways. The fluctuation on the expenditure side was caused chiefly by the larger outlay on the Cauvery reservoir works during 1912-13.

Comparison of Actuals of 1912-1913 with the Budget.

RECEIPTS.

11. The receipts during the year amounted to Rs. 276,06 or 31,47 more than the estimate of 244,60. The improvement was under almost all the heads of revenue, as the forecast of the seasonal conditions and agricultural prospects made at budget time was more than realised during the year. The conditions of trade also were very favourable as indicated directly by the railway revenue and sandalwood auctions and indirectly in the receipts from Stamps and Registration. The improvement under Land Revenue (3,50) was due to the collection of a part of the outstanding arrears in addition to a satisfactory percentage of current demand, that under Forest (14,31) to the exceptionally favourable rates realised for sandalwood at the annual auction sales as a result perhaps of greater activity in the trade and industrial centres of Europe generally and keener competition between distillers, foreign and Indian. The keenness of competition in the matter of excise contracts and increased consumption of arrack and toddy increased the Excise revenue to a much higher level than its normal standard. The excess under Stamps (1,26) was on account of better conditions of trade and that under Mining revenue (1,80) of the larger output of gold from the Kolar gold mines. Under Railways there was a fair rise (4,83) in gross earnings on account of favourable agricultural and trade conditions, and this was accompanied by a reduction in the percentage of working expenses. There were other smaller excesses under individual heads which have contributed to a fair increase over the estimate in the aggregate. As a set off against all this improvement, there was a decrease (3,79) under Profit or Loss due to the interest on a certain portion of the investments not being realised till next year.

EXPENDITURE.

12. The fluctuation on the expenditure side was principally in consequence of large lapses in the grants for capital works as the arrangements for starting some of the works for which provision was included in the budget could not be completed so as to allow of work being commenced during the year. These lapses aggregated about 25 lakhs out of a grant of 43 lakhs. There were also considerable savings in the ordinary heads of expenditure which brought about an improvement of 12,28 in the regular budget. The savings under Land Revenue (1,12) was due mainly to the full amount of remuneration to shanbhogs and patels not having been disbursed during the year. The saving of 3,00 under Education was chiefly on account of the lumpsum grant of 2,60 made for improvement of village elementary schools and technical education in the State not having been utilised during the year. Various other smaller grants for better equipment of the existing institutions which were allowed to lapse and savings in salaries and establishment also contributed in a measure to the fluctuation from the budget.

The variation under Irrigation (Major) (5,93) was on account of the lapse in the grant for the Cauvery reservoir which has been alluded to above. Under Civil Works the expenditure was less than the budget by 1,07 for the reason that some of the works included in t Public Works budget could not be undertaken for some reason or other, and under Cauve Power Scheme by 7,19 as the tenders were received late in the year, *i. e.*, in January 19 when there was not sufficient time to place orders in time for shipments to be completed a payments made before the close of the financial year. Similar remarks apply to the lapse 7,00 in the grant for Electric Tramways. An expenditure of 5 was incurred on this wo during the year, but it is included in the accounts with the Cauvery Power Scheme charg

13. The only items in which the budget grants were exceeded were :—

Refunds and Drawbacks	24
Stamps	1
Interest	44
Superannuation allowances and Pension	56
Stationery and Printing	28
Railways, Revenue Account	2,45

The increase under Refunds and Drawbacks occurred as a result of the settlement of outstanding refund bills of arrack and toddy revenue due to certain proprietors of inams and jahgirs. The increase in interest charges was due to the payment of some arrear interest on the State Loan promissory notes and to a larger amount of interest being paid on savings bank deposits as a result of the change in the savings bank rules removing the limits for annual and aggregate amounts of such deposits. The payment of accumulated pension of Sir P. N. Krishna Murthi caused the excess under Pensions; and the purchase of larger stock of printing paper, stationery, machinery and type and the entertainment of a larger piecework establishment brought about the excess in the Stationery and Printing department.

14. The following statement shows the revenue proper as distinguished from the other receipts and the net demand for expenditure on the revenues. The budget and the account figures for the year are shown together in parallel columns for purposes of comparison:—

16. As compared with the previous year there is a nett reduction of nearly 83 in the total outstandings. Reductions are noticed in all the districts. Bangalore and Kolar show noticeable reductions of 43 and 23 respectively and Tumkur and Chitaldrug large reductions of about 7 and 4 respectively. Mysore is practically stationary. On the whole, the reductions made are very satisfactory; but the balances outstanding are, in my opinion, susceptible of further reduction, especially in Mysore, Kolar and Shimoga.

17. In the following statement the outstanding objections are classified according to the years to which they relate :—

Although, out of the objections raised in 1912-13, a larger number is left undisposed at the end of October 1913 as compared with objections of the preceding year remaining undisposed at the close of October 1912, the money value involved is very much smaller being only 10 as compared with 49 of the previous year. As regards objections over a year old, the number and money value of the items relating to 1912-13 are very much smaller than those relating to 1911-12 being 692 and 17,000 rupees in the first case and 976 and 61,000 rupees in the second case. These results, indicating an improvement in the clearing in 1912-13 of objections relating to the year as well as to earlier years, cannot but be regarded as satisfactory. It is however possible to show greater improvement, if only drawing and disbursing officers pay closer attention to the rules relating to drawing of money from the treasury and its disbursement and send prompt replies to the audit objection slips issuing from the account office.

18. There are still some very old objections, the clearing of which is under correspondence and is delayed for want of full information. The number of items and the amount relating to these old outstandings are given in the following statement for the years previous to 1910-11.

Mysore, Bangalore and Kolar show heavy outstandings, while the outstandings in t other districts are comparatively small. There is no reason why even a single item shou remain outstanding for over two years, and the treasury and administrative officers shou take active steps to clear them.

19. The following statement shows the amount of objections other than servi payments for recovery outstanding on the 31st October 1913 and the departments to whi they pertain :—

20. The statements in preceding paragraphs show only bills, sub-vouchers, etc., not re ceived on 31st October 1913 and do not indicate the delay which is habitually allowed to atten the submission of vouchers and bills to the audit office which, I regret to note, is still far fron uncommon. Without prompt submission of vouchers, bills and payees' receipts and prompt replies to the audit objection memoranda, the effective audit of Government expenditure is impossible, and I would earnestly request all heads of offices to avoid delay in these matters and help to make the Government audit effective. As money cannot be drawn from treasuries except when actually required for payment and on bills in proper form and the money so drawn cannot be disbursed except on a voucher or payee's receipt, there is no reason why there should be even a single day's delay in the submission of bills, sub-vouchers, payees' receipts and detailed contingent bills.

21. Although Article 84-A, Civil Account Code, lays down clearly that money should not be drawn from the treasury except when actually required for payment, there were several instances where this rule was violated and money drawn very much in advance as indicated by the dates of the payees' receipt and the date of the abstract contingent bills. This practice is very dangerous, as it gives room for defalcation or wrongful use of such money lying in the office. A few instances in which money was drawn in advance of requirements are noted below.

(*a*) In a Deputy Commissioner's office a sum of Rs. 400 was drawn on an abstract contingent bill in September 1912 for puchasing a type-writer, but remitted to the firm in Madras three months later in December 1912 after the receipt of four reminders f firm. Further, in this instance there was no necessity for the Deputy Commiss draw the amount from the treasury, as, according to standing orders, the payment of money exceeding Rs. 25 to be made outside the State are to be arranged by my c

(*b*) A sum of Rs. 115 was drawn in March 1912, from the treasury in t office and when the details for this item were called for, the amount was refunded treasury in two instalments of Rs. 100-14-0, Rs. 14-2-0 in April 1913 and Janua respectively.

(*c*) Another sum of Rs. 125 drawn in April 1912 by the same office still unadjusted. It was reported by the Deputy Commissioner that the amount woul funded to the treasury after the contingent accounts of his office were completely e

It may be mentioned that serious irregularities resulting in the misappropriation of Government money were detected in that office; and if only the rule that money should not be drawn from the treasury except when actually required for payment had been observed, these frauds might have been prevented.

(*d*) In January 1913, the medical officer in charge of a hospital drew a sum of Rs. 1,052-2-6 for certain articles of bedding and clothing and disbursed the amount in June 1913 to the parties concerned, [illegible] in the interval kept the amount with himself.

22. Some items of more than ordinary interest noticed in the course of audit are given below:—

1. Double Claims.

(*a*) A sum of Rs. 3 being the acting allowances due for April 1912 to an acting assistant master of the A.-V. School, Chintamani, was drawn in the pay bill of the establishment of the school for April 1912, but it was again included and drawn in the supplemental pay bill for August 1912. When objection was taken by this office the amount was refunded in March 1913.

(*b*) A claim for Rs. 14 was put forth on behalf of a Sheristadar of Hole-Narsipur Taluk as arrears of increments due to him for the period from September 1910 to February 1911 and September 1911, though the amounts had already been drawn by him. Besides this, the Sheristadar drew a sum of Rs. 22 for a second time as arrears of increment due to him for the period from October 1911 to August 1912 on a bill prepared by the Nagadi Gumasta and signed by himself for the Amildar. When this was reported to the Deputy Commissioner by this office to take due notice of the conduct of the Sheristadar and Nagadi Gumasta, the latter was fined Rs. 5 with a warning that repetition of such carelessness would entail severe punishment, but no action was taken on the former as he had retired from service.

(*c*) In the report for 1911-12 it was mentioned that a second claim for travelling allowance was preferred by a member of the District Economic Committee, Shimoga, and that the President's final report in the matter was awaited. The mistake has since been explained as being due to the member being ignorant of English and to the fact that the District Economic Committee was still in its infancy and that the necessary check and scrutiny was overlooked in the President's office as the clerk in charge was himself new to the work.

2. Undisbursed pay kept on hand for more than a month.

The Registrar of the Chief Court, remitted to the treasury on the 12th January 1914 a sum of Rs. 42 being the leave allowances of C. Subba Rao, late mutchi of the Chief Court for the months of July to December 1911 (both inclusive). The undisbursed salary was thus kept with him for about two years and he was asked to explain why the undisbursed pay was kept on hand and how it was being certified by him on the subsequent pay bills that salaries drawn on former bills had been disbursed to the proper persons and that their receipts had been taken in the acquittance rolls filed in the office. The Registrar explained that the leave allowances of the late mutchi, C. Subba Rao were being sent to him by money order to his address in Madras at his request up to July 1911; that in August his requisition was not received and it was thought that he might apply later on. In the meantime a prohibitive order was received from the Sub-Judge's Court, Bangalore, to hold the accumulated balances of the mutchi subject to further orders of the Court and the amount was therefore kept by him. The same officer also appropriated the leave allowances of the same mutchi for January 1912 towards the payment of the salary of his substitute for March 1912. The explanation offered was that instead of refunding the amount to the treasury and drawing it again, the appropriation was made. The Registrar's attention has been drawn to the code rules for future guidance.

Administrative Audit.

23. Last year I had to mention that the importance of the part played by controlling officers in the audit system did not appear to be sufficiently realised by them and that disallowances by them were very rare and that countersignature was very often done as a matter of course and in a mechanical manner. I have again to invite the attention of all controlling officers to the importance of the work they have to do and to request them to

make their audit more effective and real. It is only countersigning officers that are fully acquainted with the circumstances leading up to the presentation of claims; and audit in this office has to rely largely on their countersignature and on the certificates recorded on the bills for the accuracy of the facts on which the claims are based and the necessity for the expenditure in the *bona fide* interests of Government. As instances of want of thoroughness in administrative audit, the following class of objectionable items appearing in bills countersigned by controlling officers which were not objected to by countersigning officers but had to be disallowed by the audit office may be mentioned. Under standing orders, articles of stationery supplied by the Government Stationery Depot should not be purchased locally. But there were instances in which some officers purchased locally some of the prohibited articles such as paper tags, balls of thread, country twine, reels of thread, account books and writing memo tablets; and in all these cases the countersigning officers failed to notice the objectionable items at the time of countersigning the bills and the audit office had to disallow such objectionable expenditure.

C. Electrical Department Objection Items.

25. The amount under objection remaining unadjusted in the Electrical department on the 30th June 1913 amounted to Rs. 3,43,723 as against Rs. 3,75,371 on the 30th June of the year previous. This is made up as follows:—

	1912-13	1911-12
	Rs.	Rs.
Excess over estimate and appropriation	6,863	..
Excess over estimate	...	31,590
No estimate	...	3,236
Miscellaneous irregularities	3,36,860	3,40,545
Total ...	3,43,723	3,75,371

As noticed in the last year's report the large amount of miscellaneous irregularities was due to debit to the stock account for want of sanction for raising the limit of reserve stock.

REVENUE HEADS.

I. Land Revenue.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Assessment on lands	96,89	93,50	95,33
Quit-rent of minor inam villages including kayamgutta	5,71	5,00	5,21
Miscellaneous	3,86	2,98	4,43
Rent on toddy trees	2	2	3
Total ...	1,06,48	1,01,50	1,05,00

27. The receipts under this head were less than in 1911-12 by 1,48 and more than budget anticipations by 3,50. The fall as compared with the previous year was due to the amount of the outstanding arrears at the beginning of 1912-13 being comparatively less than in 1911-12.

28. The improvement over the budget was the result of favourable agricultural conditions which made it possible to collect a part of the outstanding arrears in addition to a satisfactory percentage of current demand.

II. Forest.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Timber and other produce removed by Government agency	16,51	14,01	26,69
Timber and other produce removed by consumers or purchasers	5,27	4,32	5,70
Confiscated drift and waif wood	1	1	...
Miscellaneous	27	29	55
Total ...	22,06	18,63	32,94

29. The revenue from Forest realised in 1912-13 exceeded the previous year's actuals by 10,88 and the budget estimate by 14,31. The excess is seen under all the minor heads except *Confiscated drift and waif wood*, but the most important variation and in fact the most noticeable feature of the actuals of 1912-13 was the increase under *Timber and other produce removed by Government agency*. This increase was almost entirely due to the exceptionally favourable rates realized at the sandalwood sales. The average rate fetched was Rs. 940 per ton as against Rs. 534 in the previous year. Timber operations realized 64 more than the budget and there was a fall of 4 under *Firewood, Charcoal and Bamboos* as compared with the estimate. The latter variation is apparently caused by the substitution of private for departmental agency. As regards these articles under *Timber and other produce removed by consumers or purchasers*, the realisations from timber and other minor produce exceeded the budget estimate by 60 and 67 respectively. There were also small improvements under all the other items comprised under this head.

30. The rise of 10,88 over the previous actuals was due chiefly to the sandalwood boom referred to above and to better results achieved during the year from timber operations. The sale proceeds of elephants captured at the Khedda operations also brought about an increase of 28 over the realisations of the previous year under the head *Miscellaneous*.

III. Excise.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Arrack	21,23	20,70	23,86
Toddy	19,92	19,88	22,26
Beer	20	13	17
Ganja	96	77	1,22
Opium	40	40	49
Miscellaneous	10	8	10
Proportionate share of the cost of Central Distillery Establishment charges recovered from the Civil and Military Station ...	...	4	4
Total ...	42,81	42,00	48,14

31. The budget estimate under this head was placed at 42,00 on the basis of the standard revenue in 1909-10 and 1910-11. But the keenness of competition in the matter of excise contracts as a result of widespread knowledge of the profits of the business has added about 2½ lakhs to the anticipated realisations from shop-rental and license fees and the increased consumption of arrack and other country liquors accounts for a further increase of 2½ lakhs in the still-head duty realised. Registration and surcharge fees from arrack shops in Bangalore and Mysore cities and from liquor shops, hotels and refreshment rooms were not included in the budget, but these have added about 32 to the budget forecast. The income from Toddy tree-tax, Beer, Ganja, Opium and other miscellaneous items have also contributed their share of the increase.

32. The variation from the actuals of 1911-12 are also explained by the circumstances detailed above.

V. Assessed Taxes.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Mohatarfa in rural tracts	1,84	1,95	1,69
Assessment on vacant building sites	94	90	97
Total ...	2,78	2,85	2,66

33. The fall in the revenue, as compared with previous year's realizations and the budget estimate, was due to the formation of unions to which the Mohatarfa revenue was transferred.

VII. Stamps.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Sale of general stamps	3,79	3,46	4,04
Sale of court-fee stamps	5,05	4,40	4,90
Sale of stamped paper for copies	...	...	13
Sale of plain paper for court purposes ...	7	7	7
Duty on impressing unstamped and insufficiently stamped documents	10	10	13
Fines and penalties	13	11	13
Miscellaneous	1	1	1
Total ...	9,15	8,15	9,41

34. The revenue from Stamps was taken for the budget at the usual standard of 8,15, but the higher level reached in 1911-12 was maintained in the year 1912-13 and this accounts for the increase over the estimate.

35. The revenue was also greater as compared with the previous actuals by 26 and is the highest on record. A substantial part of the increase over previous actuals was on account of the revenue derived from copy stamps introduced into the State from February 1912. General and receipt stamps also contributed to the increase.

VIII. Registration.

	Rs.
Accounts, 1911-12	1,85
Budget, 1912-13	1,60
Accounts, 1912-13	1,83

36. The budget was framed on the basis of the normal revenue of previous years, but owing to various reasons such as favourable seasons, improved commercial activity, and a better appreciation of the benefits of registration, there has been a rise in the level of this revenue.

IX. Mining Royalty and Leases.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Royalty	19,08	17,50	19,26
Rent on prospecting lands	11	6	10
Fines on assignments	...	...	...
Total ...	19,19	17,56	19,36

37. In the absence of decided indications of any upward variation, the estimate mining revenue was placed at the same level as in the estimate of the previous years. T actual output of the previous year has however been fully maintained. There h therefore been considerable increase in this revenue over the estimate and to a small exte also over the actuals of 1911-12.

X. Interest.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Interest on loans	84	3,26	3,83
Interest on arrears of revenue	36	31	32
Total ...	1,20	3,57	4,15

38. In the budget against a demand of 4,76 for the year under *Interest on Loans* a su of 1,50 was deducted as probable amount not likely to be recovered, but the amount n actually recovered was fortunately less. This accounts for the improvements over th budget.

39. As compared with previous actuals the realisation under this head shows a marke increase of 2,95. Almost the whole of this increase is on account of the accumulated in terest on two of the largest loans, *viz.*, the loan to the Mysore Spinning and Manufacturing Com pany, Bangalore, and the loan to the Bikaneer State. The negotiations which were going o with the Spinning and Manufacturing Company for placing its financial relations with th Government on a sound basis were completed during the year and, according to the arrange ment arrived at, all the dues of the Company to the Government were consolidated into on loan, the excess outstanding over that amount being paid back to Government immediately Such excess amounting to 91 was paid by the Company during the year. According to th terms on which the Bikaneer loan was issued, the first instalment of the loan and the in terest on it from the date of the loan was due in January 1913, and this interes amounted to 2,16. Against these increases there were small decreases of 6 under *Loans t Encumbered Jahgirdars* and of 11 under *Land Improvement Loans.*

XI. Profit or Loss.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Profit on investments	4,04	10,86	7,07
Interest on current deposits in Madras Bank	37	64	64
Total ...	4,41	11,50	7,71

40. The decline as compared with the budget occurred under the head *Profit on Investments.* This was caused by the amount due on a portion of the investments not having been realised before the close of the official year. The increase as compared with previous actuals was due to the fact that a portion of the interest on Government securities due for the previous year was realised in 1912-13, the last day of the year 1911-12 having been a Sunday, and also to the fact that the balance of current deposit account at the Madras Bank in 1911-12 on which interest was realised in the year was higher than in 1910-11.

XII A. Law and Justice—Courts of Law.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Sale proceeds of unclaimed and escheated property ...	2	2	4
Recoveries on account of pauper suits	4	3	2
Fees, fines and forfeitures	38	36	49
Miscellaneous	3	3	4
Total ...	47	44	59

142

41. There was an improvement of 15 and 12 respectively over the budget and the previous actuals, due mainly to the increase under *Fees, Fines and Forfeitures.*

XII B. Law and Justice—Jails.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Proceeds of Jail labour and manufactures ...	14	15	18
Proceeds of Jail gardens ...	1	1	1
Hire of convicts ...	1	...	1
Cost of maintenance of Civil and Military Station prisoners ...	5	5	6
Sale proceeds of Weights and Measures ...	...	...	6
Miscellaneous ...	...	...	...
Total ...	21	21	32

42. The receipts under this head exceeded the budget and the previous actuals by 11. The increase was under *Proceeds of jail labour* and under *Sale proceeds of weights and measures* which were ordered by Government to be sold at the Jail from the year under report.

XIII. Police.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Fines and Forfeitures ...	...	...	...
Police supplied to private persons ...	...	1	1
Seven-tenth share of Railway Police recovered from Companies ...	7	6	6
Contribution by Mining Companies for the Detective Police at Kolar Gold Fields ...	13	13	16
Miscellaneous and other items ...	1	2	1
Total ...	21	22	24

43. The receipts of the year were close to the estimate and the previous actuals and the small rise as compared with both was under *Contribution by Mining Companies for Detective Police at Kolar Gold Fields.* The receipts on this account in 1912-13 included the contribution on account of pension and privilege leave allowances of the men in force recovered from the companies.

XIV. Education.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs
School fees ...	91	80	99
Sale proceeds of school books, maps and other publications ...	33	29	39
Contributions ...	22	23	24
Other receipts ...	1	1	2
Total ...	1,47	1,33	1,64

44. There was an improvement of 17 over previous actuals and of 31 over the budget. The increase was in both the cases under *School fees* and *Sale proceeds of school books, maps, and other publications.*

XV. Medical.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Hospital receipts	1	...	3
Value of medicines sold	1	1	1
Cost of maintenance of Civil and Military Station lunatics and lepers	6	8	6
Miscellaneous	5	5	3
Contribution	91	1,03	91
Receipts from lunatic labour	...	...	...
Sale of lanoline vaccination lymps ...	4	3	4
Sale of vaccinated calves	...	1	1
Sanitary School	...	...	1
Plague Receipts	2	2	2
Total ...	1,10	1,23	1,12

45. The receipts under this head, which are practically steady but for variations in th contribution from Municipal and Local funds, on account of Local Fund dispensarie followed pretty closely the actuals of 1911-12, and exceeded them by only 2. The increas was principally under *Hospital Receipts.*

46. As compared with the budget the receipts were less by 11. This difference wa chiefly under *contributions* and was the result of two causes. In the first place the tot amount of adjustments from the Municipal and District funds to State funds of the charg relating to Local Fund dispensaries was only 87 as against the budget estimate of 92. I the second place the pay and allowances of the Health Officer of Bangalore which under th prescribed procedure should be first paid out of State funds and subsequently recovere from the Municipality as a contribution, was finally charged off to the Bangalore Munic pality. These payments aggregating 4 did not therefore pass through this head.

XVI. Scientific and other Minor Departments.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Botanical and other gardens	8	8	9
Veterinary and Stallion Receipts	61	53	79
Agricultural Department	4	1	2
Geological Department	4	3	4
Receipts on account of public exhibitions and fairs	3	1	3
Examination fees	6	6	14
Miscellaneous	...	...	2
Total ...	86	72	1,13

47. The receipts under this head exceeded the actuals of 1911-12 by 27 and the budg estimate by 41. The increase was chiefly due to the sale of Amrut Mahal bulls to th Imperial Service Transport Corps which brought about an improvement of 18 over previo actuals under *Veterinary and Stallion Receipts* and of 26 over the budget; and also to a certa extent to the receipts from the School Final Examination which was first held in Mar 1913 under the newly introduced Secondary School-Leaving Certificate scheme, whi brought about an increase of 8 over both the previous actuals and the budget.

XVII. Receipts in Aid of Superannuation Allowances and Pensions

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Contributions	6	2	2

48. The excess in the previous year's actuals was due to a misclassification of certa items of other receipts under this head.

XVIII. Stationery and Printing.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Stationery Receipts	3	4	2
Sale of Gazette, and other publications	4	4	4
Other Press Receipts	3	1	2
Total ...	10	9	8

49. There is nothing special in regard to these figures and the variations do not call for any remarks.

XIX. Miscellaneous.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Unclaimed Deposits	44	34	36
Dividends and Duties ...	20	16	22
Tolls	24	23	30
Fees for Government Audits ...	1	...	...
Miscellaneous Fees, Fines and Forfeitures	18	17	19
Miscellaneous Sale-proceeds ...	39	26	37
Salt	5	7	4
Miscellaneous	36	26	16
Total ...	1,87	1,49	1,64

50. The receipts under this head were 15 in advance of the budget and this advance is seen under all the minor heads except *Salt* and *Miscellaneous*. The important variations were under *Dividends and Duties* (6) due to the increase in the production of cotton goods on which duty is levied; *Tolls* (7); *Miscellaneous sale proceeds* (11) owing to increases in the sale proceeds of building sites in villages and taluks. Under *Miscellaneons* the receipts from acreage contributions and other items were less. *Salt* also showed a decline of 3.

51. As compared with the actuals of 1911-12, the figures for 1912-13 were 23 less owing to comparatively smaller realisations under Lapsed Deposists and Acreage Contribution.

XX. Army.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Army Proper	28	5	17
Stores Department	2	2	5
Kunigal Farm	12	22	20
Hessarghatta and Nadamavinapura Farms	27	22	30
Total ...	69	51	72

52. As a result of larger realisations from hire of transport ponies and Government carriages and of sale proceeds of cast horses and ponies not anticipated at budget time, there was an improvement of 12 under *Army Proper*. *Hessarghatta and Nadamavinapura Farm* eipts were also better by 8. As compared with previous actuals *Army Proper* receipts re less owing to smaller realisations from sale proceeds of cast horses and ponies and *nigal Farm* receipts, more (8).

XXA. Military Works.

Minor Heads	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Military Works	12	10	15

53. The receipts under this head consist of rents recovered from the regiments occuing the silledar and barr lines. The level of these receipts is between Rs. 9,000 and 9,500. The excess was due to the sale proceeds of the Mysore Local Service sick lines rchased by the Palace.

XXI. State Railways—Revenue Account.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Gross Receipts	32,53	30,00	37,22
Deduct—			
1. Working Expenses	18,49	18,00	19,95
2. Surplus profit paid to Madras and Southern Mahratta Railway Company ...	61	56	1,00
Total Net Revenue ...	13,43	11,44	16,27

54. As a result of a rise of 7,22 in the gross earnings on account of development of traffic both under coaching and goods, there was an advance of 4,83 in the net receipts from State Railways as compared with the budget which was formed on the basis of the gross revenue for a year of average agricultural prospects and normal trade conditions and on the usual percentage of working expenses to gross revenue.

55. The increase as compared with the previous year's earnings is explained by the fact that the gross receipts in 1911-12 amounted only to 32,53 and the percentage of working expenses to gross revenue was 57·2 in 1911-12 but only 53·6 in 1912-13.

XXII. Public Works.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Sale of water to the Kolar mines ...	1,54	2,28	2,39
Excess water rates realised in Mysore and Bangalore Cities	32	56	70
Other Public Works Receipts	1,87	40	80
Total ...	3,73	3,24	3,89

56. The receipts under this head exceeded both the budget expectations and the previous actuals by 65 and 16 respectively. The large difference between the budget and the actuals was in consequence of a small improvement of 11 in the receipts from *sale of water to the Kolar mines*; an increase of 14 under *excess water rates realised in Mysore and Bangalore cities* on account of water supplied to the Civil and Military Station from the Chamarajendra water works in excess of what the Civil and Military Station pumps could deliver and also to a portion of the arrears of 1911-12 recovered in 1912-13; *other public works receipts* amounted to 80 as against 40 anticipated in the budget. This is chiefly due to the contribution received from the Kolar Gold Fields Sanitary Board for the acquisition of the Coronation Building at Robertsonpet which was adapted for the Maternity Hospital. The improvement as compared with previous actuals was chiefly in consequence of a portion of the arrears of 1911-12 having been collected in 1912-13.

XXIII. Cauvery Power Scheme.

	Accounts 1911-12	Budget 1912-13	Accounts 1912-13
	Rs.	Rs.	Rs.
Kolar Gold Field power supply	14,25	13,80	14,31
Bangalore Lighting and power supply ...	1,17	1,17	1,34
Bangalore Civil and Military Station ...	70	71	78
Mysore City	54	52	63
Total ...	16,66	16,20	17,06

57. The realisations under this head proved better than those in the previous year by The increase was under all the minor heads and was due in the case of the last three ite to additional power and lighting installations in 1912-13. The increase of 6 in t *Kolar Gold Field power supply* was in consequence of the increased power supply to t Kolar gold mines. As compared with the budget the realisations were 86 better and t betterness was shared by all the heads. The improvement under the last three ite was the result of the increased consumption of power on account of the new power a

lighting installations and the improvement of 51 under *Kolar Gold Fields power supply* was chiefly due to the rabate paid to the mining companies for stoppage of power having been less than anticipated.

EXPENDITURE HEADS.

1. Refunds and Drawbacks.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Land Revenue	1,54	1,60	1,58
Forest	2	3	1
Excise	1,34	50	65
Assessed Taxes	...	...	1
Sayer Customs	...	...	...
Stamps	31	28	37
Registration	1	1	4
Total ...	3,22	2,42	2,66

58. As compared with the budget there was an excess of 24 over the grant. In the budget a grant of 50 was considered sufficient for the outstanding refund bills of arrack and toddy revenue due to certain proprietors of inams and jahgirs expected to come up for settlement in the course of the year. But such bills actually settled aggregated 65. There were also small excesses over the grants under *Assessed Taxes, Stamps and Registration.*

59. The expenditure under this head during the year 1912-13 fell short of that of the previous year by 56 and was principally due to the amount of Excise revenue refunded to inamdars being much less than in the previous year, *viz.* 65 as against 1,34, the more important and larger of these old claims having been settled in 1911-12.

2. Land Revenue.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Revenue Commissioner	39	55	53
Charges of District Administration ...	8,73	8,89	8,52
Remuneration to shanbhogs and patels ...	8,15	8,03	7,38
Revenue Survey and Settlement Department	1,49	1,54	1,46
Inam Department	4	4	4
District Survey Establishment ...	10	10	10
Assignments	13	15	15
Total ...	19,03	19,30	18,18

60. There was a decline of 85 in the total expenditure under this head from the previous year's actuals and the variations causing this decline were chiefly under *Charges of District Administration* (21) and *Remuneration to Shanbhogs and Patels* (77). The decline in the former case was mainly due to savings under salaries and establishment and also to the grants for supplies and services; and that in the latter, to the slow progress of adjustments of potgi. Against these decreases there was an increase of 14 under *Revenue Commissioner* consequent upon the appointment of the Revenue Commissioner which was vacant for a long period during 1911-12 having been filled up.

61. The lapse in the budget grant for the year was 1,12 chiefly made up of decreases under *Charges of District Administration* (37), *Remuneration to Shanbhogs and Patels* (65) and *Revenue Survey and Settlement Department* (8). The causes of variations under the first two items have been explained while reviewing the actuals, and the saving in establishment mainly explains the difference under the third item.

3. Forest.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
onservancy and Works	4,08	3,84	3,91
stablishments	3,06	3,20	3 05
ump addition on account of Khedda operations in the Shimoga District	...	10	...
Total ...	7,14	7,14	6,96

62. The expenditure fell short of both the previous actuals and the budget by 18. The fall as compared with the actuals of 1911-12 was under *Conservancy and Works* which was the result of a decrease of 40 under timber removed by Government agency. This decrease was counterbalanced by increased charges on construction and maintenance of communications and buildings and also on plant, tools and instruments, on account of a saw-mill machinery purchased, and by a larger outlay on demarcation and fire protection.

63. The lapse of 18 in the budget estimate is made up of an increase of 7 under *Conservancy and Works* and of a lapse of 15 under *Establisments.* The increase under *Conservancy and Works* was mainly on account of a new saw-mill machinery purchased and greater outlay on demarcation of forest, on surveys, on account of printing of maps, on fire protection due to high rates paid for clearing and burning in some localities, and adjustments of previous year's expenditure. There was also a small excess over the grant under *Miscellaneous* on account of the cost of kunbi settlement in Shimoga amounting to Rs, 2,987 which was not provided for in the budget. Against these excesses there was a lapse of 17 in the grant for timber operations, both departmental and private. Against the lumpsum grant of 10 made by the Finance Department for Khedda operations in the Shimoga district to check the ravages of wild elephants, the actual expenditure involved amounted to Rs. 15,277 but this was classified under the various detailed heads.

The lapse under *Establishment* was in consequence of the sanctioned strength of establishment for which provision was included in the budget not having been entertained throughout the year, to travelling allowance claims not being promptly preferred and to some purchase provided for in the grant for contingencies not having been made during the year. The amount of these lapses was to a certain extent reduced by an excess of 4 over the grant under salaries due to promotions given to superior officers of the department in accordance with the scheme of reorganization of the Forest department sanctioned in Government Order No. R. 2672-81—Ft. 96-10-5, dated 16th November 1912.

64. The excesses over grants referred to in the preceding paragraphs are covered by additional grants sanctioned during the year. An additional grant of 4 was sanctioned for carrying out projected works in the Forest department but the actual outlay was less than the original grant itself. The excess of Rs. 2,987 on account of kumri cultivation by the kunbi settlement is against an additional grant of Rs. 5,000 sanctioned for that purpose.

4. Excise.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.
Superintendence	36	36	30
District Executive Establishment	2,94	2,99	2,97
Distillery Establishment	5	7	7
Total ...	3,35	3,42	3,34

65. The expenditure under this head amounted to 3,34 as against 3,35 in the previous year, but it was 8 less than the budget. The lapse of 8 in the budget occurred under *Superintendence* (6) as there was no separate appointment of Excise Commissioner for some months of the year and to a very small extent under *District Executive Establishment* (2) on account of savings in the salary of the subordinate executive staff.

V. Discount on sale of plain paper for court purposes	...	1	1
Lump addition by F. D.	...	22	...
Total ...	32	60	61

66. As compared with the previous actuals there was an excess of 27 under *Stamp Manufactory* due chiefly to the purchase of dies, plates and machinery for printing stamps of new design and the cost of manufacturing stamped copying sheets for use in civil and criminal courts. There was also a small increase under *Discount on sale of stamp papers and labels* consequent on larger sales.

67. But for an excess of 3 under *Discount on sale of stamp papers and labels* on account of larger payment of discount consequent on increased sale of stamps, the actuals follow the budget pretty closely, the expenditure against the lump-sum grant of 22 made by the Finance Department for improved dies, plates and machinery for stamps of the new design and for stamped copying sheets being classified in the accounts under the appropriate heads. The excess of 3 referred to above which requires the sanction of Government brought about an excess of 1 over the total grant for the major head.

Total ...	2,08	2,31	2,11

69. The increase of expenditure compared with the previous year was due to the strengthening of the Police force on the Kolar Gold Fields at an annual cost of 8 which was partly counterbalanced by small decreases under other heads.

70. The saving of 20 in expenditure against the budget allotment was on account of savings in salaries and establishment, particularly in the Geological department on account of the deputation of certain officers on duty in other departments. There was a small excess of 1 over grant under *Refunds*, the charges under which are of a fluctuating character. This excess requires sanction of Government.

11. Interest on Ordinary Debt.

71. The excess over the budget and the previous actuals is due to the payment of some arrear interest on the 4 per cent State Loan promissory notes. The excess over grant awaits sanction of Government.

Total ...	3,06	3,06	3,24

72. The increase over previous actuals and the budget is due to larger interest on savings bank deposits on which aggregate and annual limits hitherto imposed have been removed and on larger balance at the credit of the Insurance fund. No provision was made in the budget for *refunds* the actuals under which represent only the adjustments during the year of erroneous credits taken to interest instead of the principal of some loans in the accounts of the previous year. These excesses require sanction of Government.

13. Profit or Loss.

Total ...	3	3	1

73. As the surplus investments are almost all at present in the special form of Government of India promissory notes for Native States, the amount of income tax payable on the interest on the notes is now reduced to 1. This accounts for the saving of 2 from the previous actuals and the budget.

146

75. There was an increase of 1,87 over the previous actuals and this occurred under *Dewan to His Highness the Maharaja* (8) as a result of the privilege leave for three months specially sanctioned by His Highness the Maharaja to Pradhana Siromani T. Ananda Row, C.I.E., at the time of his retirement from the office of Dewan, under *Economic Conference* (72) on account of the appointment of a full-time Secretary to the Conference on 800-100-1000 plus 200 local allowance, investigation of special industries by superintendents and assistant superintendents specially appointed, the undertaking of a general industrial survey, the appointment of a special adviser to Government for industries and commerce, increased expenditure on experiments and demonstrations in industrial and agricultural subjects; under *Civil Secretariats* (7) due chiefly to the appointment as Secretary to Government of an officer of the rank of a first class Deputy Commissioner in place of an officiating officer from the grade of senior assistant commissioners and the creation of a new appointment, *viz.*, that of the Deputy Secretary; and under *Reception and Entertainment of guests* (99) which is explained by the fact that there was a write-back to Palace accounts in 1911-12 of a portion of the charges incurred in 1910-11 in connection with His Highness the Yuvaraja's marriage. There were other small increases, *viz.*, in the *Comptroller's Office* on account of larger travelling allowances paid, on account of greater activity in local audit and increased contingent expenditure in consequence of the opening of a library of books on Accounts, Audit, General Finance and kindred subjects; and under *Durbar presents* on account of cost of jewels of the Gandabherunda order presented to Mysore title-holders.

76. Compared with the budget there was an improvement of 75 in the actuals which is the net result of savings under certain heads counterbalanced to some extent by excesses under other heads. The excess of 12 under *Dewan to His Highness the Maharaja* is due to the privilege leave allowances of the late Dewan; of 3 in the *Comptroller's Office*, chiefly to an interchange of an officer between the Financial branch of the General and Revenue Secretariat and the Comptroller's Office. The savings under *Tour charges* (14) is due to the naturally fluctuating character of these charges; that under *Economic Conference* (32) is on account of the provisions made in the budget for experiments and expert opinion in the several committees and for the Industrial Depot in the Industries and Commerce Committee not having been fully utilised. The savings of 10 under *Civil Secretariats* is chiefly under establishment; of (8) under *Staff and Household of His Highness the Maharaja* was chiefly in the salary of the Military Secretary to His Highness the Maharaja and to a refund of contribution on account of pension and leave allowance of Col. R. G. Jones which had been paid in excess in 1910-11 and which was adjusted by reduction of expenditure in 1911-12. Under *Reception and Entertainment of guests* the lapse of 23 was due to small savings under the various items included under this minor head, the most noticeable item being the lapse of 12 in the grant kept at the disposal of the General and Revenue Secretariat for reception of important personages.

77. The excesses over grants noticed above under *Dewan to His Highness the Maharaja* and *Comptroller's Office* require sanction of Government.

16A. Law and Justice—Courts of Law.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Actuals 1912-13 Rs.

Share of Land Revenue Charges	3,56	3,49	3,35
Lump addition by Finance Department	...	1	...
Total ...	7,72	7,77	7,76

78. The total expenditure under this head exceeded the previous actuals by 4, but leaving out of account the share of land revenue charges transferred to this head, the expenditure was 25 more than the corresponding figure for 1911-12. The variation is marked

in the figures under *Civil* and *Sessions Courts* and *Munsiffs' Courts*. The increase in the former case is explained by the fact that, while the figures for 1911-12 include only charges for a part of the year on account of the court of the District and Sessions Judge, Bangalore Division, which came into existence in the latter part of 1911-12, the cost for the whole year is included in the accounts for 1912-13. A temporary additional Sessions Court which sat in Mysore during the last three months of the year to try the Kannegal riot case also contributed to the increased expenditure of the year. The increase under *Munsiffs' Courts* was partly on account of the revision of the scale of Munsiffs' pay introducing a time scale in their case and partly on account of remuneration to copyists under which no charges were incurred in the previous year. There were also small increases under *Assistant Sessions and Sub-Judges' Courts* (3) *Process Serving Establishment* (1) *District Magistrates' Courts* (3) and *Refunds* (2). The savings of 2 under *Chief Court* was the net result of two causes, *viz.*, of a saving of about 14 in the salary of the Chief Judge due principally to his having gone on leave for about 5 months of the year, and an excess of about 9 on account of the personal allowance and contribution towards pension and leave allowances of one of the puisne judges whose services have been lent to the State.

79. Though the total expenditure under the head is within the grant for the major head as a whole, the sanctioned grants under all the minor heads except *Law Officers*, *Process Serving Establishment*, *District Magistrates' Courts* and *Refunds* have been exceeded. The events noted above in reviewing the actuals also account for the excess of 5 under *Chief Court*, of 3 under *Civil and Sessions Court*, and of 7 under *Munsiff's Courts*. The transfer of officers on a higher pay to the posts of Sub-Judges caused the excess of 2 under *Assistant Sessions and Sub-Judges' Courts*. The small increase of 1 under *City Magistrates' Courts* was the result of increased salary of one of the magistrates.

Against these increases there was a saving under *Process Serving Establishment* owing to the grant of 2 for temporary establishment not having been utilised, and of 2 under *Refunds* the charges under which are of a fluctuating nature.

80. The excesses under all the minor heads referred to above require Government sanction. But for a decrease of charges transferred to this head from Land Revenue owing to savings in the grants made under that head, the total expenditure would have been 14 in advance of the budget. But this increase has been exactly counter-balanced by a corresponding decrease in those charges.

16B. Law and Justice—Jails.

Jails	1,00	1,15	1,04

Refunds	...	...	...
Total ...	1,11	1,51	1,15

81. The actuals of 1912-13 were more than those of the previous year by 4, but were 36 less than the budget. The increase in the actuals occurred in the cost of rations and other dietary charges of lock-ups. Owing to savings in the emoluments of the Superintendent, Central Jail, due to a change of incumbents and in the grant for dietary charges, there was a saving of 11 in the budget under *Jails*. The large decrease of 25 under *Jail Manufactures* was due to the lapse of the provision made in the budget for khaki weaving industry and for manufacturing weights and measures.

17. Police.

Minor Heads	Accounts 1911-12 Rs.	Budget 1912-13 Rs.	Accounts 1912-13 Rs.

Refunds	...	...	...
	9,24	9,26	9,18
Share of Land Revenue Charges	27	26	26
Total ...	9,51	9,52	9,44

82. The expenditure was less than in the previous year under *Superintendence, Town Police* and *Railway Police* and more under *District Police* and *Special Detective Police, Kolar Gold Fields.* The reduction of 11 under *Superintendence* was due to the absence of any adjustment as in 1911-12 of the State's share of the English furlough allowances of a former Inspector-General of Police; that of 3 under *Town Police* was due to savings in the salary of Assistant Superintendents owing to change of officers and in the pay of the men owing to more vacancies in the force as compared with the previous year. The saving of 1 under *Railway Police* is the result of small differences in the several detailed heads and calls for no remarks. The increase of 7 under *District Police* was mainly in the travelling allowance to Police Force and of 2 under *Kolar Gold Fields Special Police* was on account of the scheme sanctioned by Government for strengthening the Kolar Gold Fields Force.

83. In comparison with the budget also the expenditure was 8 less on the whole. The cause of this saving in expenditure was less expenditure under salaries of officers and men of the *Town Police* (4) and *District Police* (16). Against these savings there was an excess of 11 under *Superintendence* and of 1 under *Special Detective Police, Kolar Gold Fields.* In the former case the excess was due to the payment of allowances to the late Inspector-General on leave prior to his retirement and larger travelling and contingent expenditure sanctioned. The small excess of 1 under *Special Detective Police, Kolar Gold Fields* was in consequence of the new scheme referred to above.

84. Both these excesses over grant mentioned in the preceding paragraphs have to be sanctioned by Government.

18. Education.

Lump addition	...	2,60	...
Total ...	10,72	14,47	11,47

85. The expenditure increased by 75 as compared with that of 1911-12. The increase occurred under all the items except *Government Colleges General* where there was a decrease of 23 owing to the expenditure on furniture and books and the equipment of laboratories not being so large as in 1911-12. Under *Oriental Library and Search for Sanskrit Manuscripts* the expenditure in the two years was the same.

86. The increase of 10 under *Direction* was in consequence of the appointment of a full-time Inspector-General of Education during the year and that of 2 under *Inspection* to the increased expenditure on account of travelling allowance to the officers and staff of the Inspectorate. The opening of new schools and the improvement of existing schools which were effected under the scheme for the expansion of primary education and the outlay on the equipment of Government High School libraries and laboratories contributed to the larger expenditure of 27 under *Government Schools General.* The large excess of 36 under *Grants-in-aid* was in consequence of increased grants-in-aid given to secondary and primary schools, to the special building grant to Janopakari Doddanna Chetty's industrial school and to increased grants on account of the recurring charges of additional village schools opened. Special charges aggregating 14 under *Miscellaneous* brought about an increase of 12.

87. Compared with the budget there was a decrease of 3,00 which was largely due to the non-utilization during the year, either wholly or partly, of the special grants included in the budget for various purposes. There were also lapses in the normal grants. The saving under *Direction* was in the emoluments of the Inspector-General of Education as the budget

provided for the personal and house rent allowances given to the previous incumbent while the present incumbent draws a consolidated salary of only Rs. 1,250. There was also a small saving in the grants for travelling allowances. The decrease of 14 under *Government Colleges General* was on account of savings in salaries and contingencies. There was also a small lapse of 4 in the lump sum grants made under *Government Schools General* for library books and other appliances for High Schools. The lapse of 15 under *Book Department* occurred chiefly on account of the non-utilization of the special grant of 10 made for purchase of maps and also of 5 in the fixed annual grant of 20, and those of 2 and 10 under *Oriental Library* and *Grants-in-aid* respectively on account of small lapses under various items.

88. The lump sum grant of 2,60 included the following special grants:—

1,00 for opening new schools and improving existing ones.
1,00 for village school buildings.
60 for starting the Chamarajendra Technical Institute in Mysore and for promoting technical education in the State generally.

The last of these grants was almost entirely allowed to lapse, as the scheme for the introduction of elementary and advanced technical, industrial and commercial education sanctioned by Government could not be brought into effect before the close of the year. A portion of the grant for village school buildings was utilised during the year. Out of the grant of 1 lakh for opening new schools and improving existing ones, arrangements were completed during the year to utilise only Rs. 32,948 for these purposes. Even these charges were not incurred during the year, and this fact accounts for the lapse of the major portion of this grant.

89. The only items which exceeded the budget were *Inspection* and *Miscellaneous*. The excess of 2 under *Inspection* was due to the charges on account of the travelling allowances of the inspecting officers and their staff having exceeded budget anticipations.

19. Muzrai or Religious and Charitable Institutions.

Stipends and Grants-in-aid	4	5	5

Ayurvedic College, Mysore	4	5	3
Total ...	3,45	3,60	3,51

90. The actuals of the year exceeded the previous year's expenditure by 6 but fell short of the budget by 9. The increase in the former case was due partly to the increased grant under construction and repairs as a result of a building grant of 5 sanctioned to the Srinivasa Mandiram orphanage at Bangalore. The absence of any special write-back as in the previous year of Palace charges also accounts for the difference. But these excesses aggregating about 10 were to a certain extent counterbalanced by small decreases under *Superintendence* for reasons explained below in comparing the actuals with the budget.

91. The difference between the actuals and the budget was largely under *Superintendence* owing to the separate appointment of Muzrai Superintendent being vacant for the major portion of the year.

20. Medical.

Total ...	6,84	8,38	7,70

92. The expenditure was in excess of the actuals of the previous year by 86 but was less than the budget by 68. The budget provided for an increase of 1,54 over the actuals of 1911-12 in connection with the increased rate of pay of sub-assistant surgeons; the appointment of a Durbar Physician and Surgeon, the formation of the Public Health Institute sanctioned by amalgamation of the Chemical and Bacteriological laboratories and the starting of a Sanitary School for the training of sanitary and assistant sanitary inspectors. There were lapses under all the heads, but they were heavy under *Medical Establishment* (27) and *Sanitation and Vaccination* (32). In the former case the saving was in the salaries of assistant and sub-assistant surgeons and in the latter owing to the plague charges being less than anticipated. There was also a lapse of 6 in the provision for the salaries of the Health officers of Bangalore and Mysore cities.

Total ...	3,39	3,72	3,12

93. The expenditure under this head was less than that of 1911-12 by 27 and the budget by 60. The variation in the actuals occurred chiefly under *Census* and to a small extent under *Agricultural Department* while the variation as compared with the budget was mostly (45) in the *Agricultural Department* and partly under *Census* (20). The Census department was reduced in the year under report to a small office as the work drew to its close. But the budget provided for a larger grant than was actually necessary, and the transfer of the printing charges, against the grant of 13 in the Census department, to the major head Stationery and Printing according to the rules of classification also accounts for the fluctuation from the budget. In the Agricultural department the Director was on furlough and one of the appointments of assistant chemists fell vacant by the incumbent's death. The lump sum grant sanctioned for the formation of the Agricultural School lapsed as the institution was not started during the year. The Special Adviser to Government for industries and Commerce for whose emoluments, staff and other expenses provision was made in the Industries and Commerce Committee of the Economic Conference was made in the course of the year the Director of a separate department of Industries and Commerce, and the charges relating to the new department to the extent of 8 were transferred to this head. There is therefore an excess of 7 under this head over the budget, and this excess requires the sanction of Government. An excess of 1 under *Local and Civil Service Examinations* has been met by reappropriation and that of 1 under *Registrar of Co-operative Societies* has been authorized to be admitted in audit.

96. The excess of 57 over the budget under *Superannuation and Retired allowances* and of 2 under *Compassionate allowances* require sanction of Government.

97. Owing to a larger stock of printing paper and stationery obtained for public departments, there has been an excess of expenditure over that in 1911-12 and over that provided for in the budget. The grants for piece-work establishment and for purchase of material and type were also exceeded largely. Out of the excess of 10 under *Stationery Depot* and of 19 under *Printing and Gazette Office*, sums to the extent of 8 and 16 respectively have been reappropriated or sanctioned in addition to the budget grant under these heads, and the excesses of 2 under the former and 3 under the latter head have yet to be sanctioned by Government.

98. Expenditure was less than that of the previous year and the budget forecast 5,13 and 45 respectively. The major part of this difference (3,06) between the actuals v caused by the *Coronation Durbar* charges of 1911-12. The *contribution* paid to the Mys City Improvement Trust was less than in 1911-12 and the budget anticipations, as there v a large opening balance at credit of the fund.

99. The budget allotments have been exceeded under the following heads:—

Miscellaneous General (4).—On account of irrecoverable temporary loans written off;

Charities and Donations (8).—On account of the heroic size head in marble for the statue of His Highness the late Maharaja;

Delhi Durbar Charges (24).—On account of arrears charges not anticipated at budget time.

Refunds (2).—This was not anticipated in the budget.

All these excesses, except that under *Charities and Donations* which has been met by reappropriation, require the sanction of Government.

100. As compared with previous actuals the expenditure fell by 67 and as compared with the budget by 84. The difference as compared with the actuals of 1911-12 was entirely accounted for by the Delhi Durbar charges (1,00) which were special to 1911-12 counterbalanced by an increase (42) under *Imperial Service Transport Corps* due to increased clothing charges, feed of ponies and bullocks and to comparatively larger expenditure incurred in converting pony carts into bullock carts.

101. The fall as compared with the budget occurred under all heads, the most noticeable being under *Hessaraghatta and Nadamavinapura Farms* (13) *Barr or Native Infantry* (25) and *Imperial Service Transport Corps* (29). In the first case a considerable part of the amount provided for the collection of the produce in the farms was not utilized. The whole of the special provision of 16 under *Barr or Native Infantry* for purchase of rifles lapsed as the purchases could not be made before the end of the financial year. There were also some savings in the pay of non-commissioned officers and men of the Barr regiment. The savings under *Imperial Service Transport Corps* was in the grants for feed of ponies and line gear as a result of the conversion of the pony corps into a bullock train. The grant for the registration and hire of bullocks also lapsed as the system of registration was abandoned in favor of the system of outright purchases of animals.

102. Under only one item, *viz.*, Delhi Durbar charges the budget was exceeded and the expenditure of 4 under this head was in adjustment of arrear charges for which no provision was made in the budget. This excess requires Government sanction.

108. Compared with the actuals of the previous year, the accounts for 1912-13 showed an increase of 2,30. The increase of 22 under *Saloon carriages* was due to the outlay on the construction of dining saloons for the use of His Highness the Maharaja; the increase of 1,56 under *Direction and Accounts*, to the organisation of the office of the Engineer-in-Chief and the enlargement of the Railway secretariat and the audit office. But if the charges to the extent of 98 which relate to extension of Railways under the head 34. Construction of Railways are deducted from this, the excess will be reduced to 58. The excess of 52 under *Surveys* was the result of a larger number of survey projects taken on hand and completed during the year.

109. The increase of 2,47 over the budget grant was distributed over all the minor heads. The excess under these heads is only nominal as provision for them was included under the major head, 34. Construction of Railways. The cost of direction and accounts increased during the year owing to the formation of a separate Railway construction department and large surveys were started during the year. The charges relating to these items were classified under this head according to recognised principles of classification.

Other Public Works—			
33. Civil Works	21,62	21,62	20,55
Total	33,93	49,47	41,86

110. The accounts for 1912-13 exceeded in the aggregate those of the previous year by 7,93. On account of the larger outlay on the Cauvery reservoir project at Kannambadi the expenditure under *Irrigation Major Works* was 9,47 more than in the preceding year. This excess was to a certain extent counterbalanced by a decrease of 47 under *Minor Works* due (1) to less expenditure on minor tanks where excessive quantity of water is said to have prevented complete operations being undertaken, (2) to the difficulty in procuring adequate labour, and (3) to the late sanctions accorded to certain estimates. The comparatively smaller outlay during 1912-13 on the Bangalore High School and the Minto Ophthalmic Hospital which were practically completed in 1911-12, chiefly accounts for the difference of 1,07 between the actuals of the two years under *Civil Works*.

111. The actuals show a saving of 7,61 in the budget grant, chiefly under *Major Works* (5,93) as the progress of work in the Cauvery Reservoir Division was not as rapid as was expected, in consequence of the difficulty of clearing the foundation. The labour secured was also inadequate and the delay in the settlement of compensation for lands which have to be acquired in connection with the project also contributed to retard the progress of expenditure in accordance with the budget programme. The decrease of 61 under *Minor Works* was due to the reasons stated in the preceding paragraph and that of 1,07 under *Civil Works* is explained by the fact that (1) the grant for the Police Superintendent's office in the Bangalore City Fort was not utilised as the estimate therefor was not sanctioned, (2) the question of allowing higher rate for constructing the Minto Ophthalmic Hospital at Bangalore was not decided, and (3) certain materials ordered for the new Palace at Mysore were not ved.

Reserve grant	...	20	...
Extension of Railways	...	10,00	...
Total ...	1,49	13,25	2,46

112. There was an increase of 97 over the previous actuals chiefly due to the increase in the Government's share of the general stores balance at the end of June 1913 against the large credit therefor at the end of June 1912.

113. As compared with the budget there was a large lapse of 10,79 and this was mainly due to the provision made for the construction of the Mysore-Arsikere chord line and for signalling arrangements at road side stations not having been utilised. It has been noticed above that an expenditure of 98 incurred against the grant of 10 lakhs for Railway extension was recorded under the head, 30 A. Micellaneous Railway Expenditure.

Total	6,84	13,98	6,79

114. Compared with the actuals of the previous year there was a fall of 5 which is the net result of an increase of 13 under *Revenue Account* and a decrease of 18 under *Capital Account.* The increase is mainly due to larger expenditure incurred for conserving river supply in the summer months of the year and to the increments granted to the staff according to the revised scale of establishment. The reason for the decrease under capital expenditure are explained below when comparing the actuals with the budget.

115. The accounts showed a lapse of 7,19 from the budget. Of this 68 was under *Revenue Account* and 6,51 under *Capital Account.* Less expenditure under the first account was due to savings under establishment as the leave allowances of the Chief Operator at Sivasamudram were not paid during the year, and to the non-adjustment by the Chief Electrical Engineer of certain charges. The budget forecast under the heads "Transmission" and "Distribution" proved to be somewhat higher than the actual requirements. The heavy lapse under capital account is made up of the following items and the reasons are noted against them.

Sivasamudram Kolar Section (—43). Due to the consumption of stock on hand without additional purchase and to the non-settlement by the Revenue department of the question of compensation for the lands acquired for the construction of some quarters.

Bangalore City Section (—10). Late commencement of the construction of the Chief Electrical Engineer's Office.

Bangalore Civil and Military Station (—5). The non-utilization of the grant for building store sheds.

Mysore City Section (—3). Savings in the estimate for equipment of modern allumin lightning arrestors along the Mysore line.

IVth Installation (—6,00). An expenditure of only 31 was incurred and this is recc under the Sivasamudram Kolar Section. The lapse is due to the late receipt of ten and there was not therefore sufficient time to import electrical apparatus, line mate etc., from foreign countries within the financial year. A small expenditure to the exter 5 was incurred in connection with the Tramway project against the grant of 7,00 in budget, and this is merged in the accounts under Cauvery Power Scheme.
